

regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** This ICR covers the information collection activities associated with voluntary participation in the Pesticide Environmental Stewardship Program (PESP). The program uses the information collected to establish partner membership, develop stewardship strategies, measure progress towards stewardship goals, and award incentives. PESP is an EPA partnership program that encourages the use of integrated pest management (IPM) strategies to reduce pests and pesticide risks. IPM is an approach that involves making the best choices from among a series of Pest management practices that are both economical and pose the least possible hazard to people, property, and the environment.

PESP member includes pesticide end-users and organizations which focus on training, educating, and/or influencing pesticide users. To become a PESP member, an organization submits an application and a five-year strategy outlining how environmental and human health risk reduction goals will be achieved through IPM implementation and/or education. The program encourages PESP members to track progress towards IPM goals such as: reductions in unnecessary use of pesticides, cost reductions, and knowledge shared about IPM methodologies. Entities participating in PESP also benefit from technical assistance, and through incentives for achievements at different levels.

**Form Numbers:** EPA Form No. 9600–01, 9600–02, and 9600–03.

**Respondents/affected entities:** Entities potentially affected by this ICR are pesticide user companies and organizations, or entities that practice IPM or promote the use of IPM through education and training.

**Respondent's obligation to respond:** Voluntary.

**Estimated number of respondents:** 419 (total).

**Frequency of response:** Annual and on occasion.

**Total estimated burden:** 50,093 hours (per year). Burden is defined at 5 CFR 1320.03(b)

**Total estimated cost:** \$3,501,544 (per year). This is the estimated burden cost; there are no capital investment or

maintenance and operational costs for this information collection.

### III. Are there changes in the estimates from the last approval?

There is an increase of 2,428 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase reflects EPA's updating of burden estimates for this collection based upon historical information on the number of PESP members. Based on revised estimates, the number of IPM Promoters has decreased, while the number of IPM users has increased, and the number of National IPM users has decreased since the last ICR renewal. Although the estimated burden per response has not changed for any category, the shift in membership types has resulted in a net increase in the overall burden.

In addition, OMB has requested that EPA move towards using the 18-question format for ICR Supporting Statements used by other federal agencies and departments and is based on the submission instructions established by OMB in 1995, replacing the alternate format developed by EPA and OMB prior to 1995. EPA intends to update this Supporting Statement during the comment period to reflect the 18-question format, and has included the questions in an attachment to this Supporting Statement. In doing so, the Agency does not expect the change in format to result in substantive changes to the information collection activities or related estimated burden and costs.

### IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

**Authority:** 7 U.S.C. 136 *et seq.*

Dated: March 25, 2021.

**Michal Freedhoff,**

*Acting Assistant Administrator, Office of Chemical Safety and Pollution Prevention.*

## FARM CREDIT ADMINISTRATION

### Sunshine Act Meetings

**AGENCY:** Farm Credit Administration Board, Farm Credit Administration.

**ACTION:** Notice, regular meeting.

**SUMMARY:** Notice is hereby given, pursuant to the Government in the Sunshine Act, of the forthcoming regular meeting of the Farm Credit Administration Board.

**DATES:** The regular meeting of the Board will be held April 8, 2021, from 9 a.m. until such time as the Board may conclude its business. *Note: Because of the COVID–19 pandemic, we will conduct the board meeting virtually. If you would like to observe the open portion of the virtual meeting, see instructions below for board meeting visitors.*

**ADDRESSES:** To observe the open portion of the virtual meeting, go to *FCA.gov*, select “Newsroom,” then “Events.” There you will find a description of the meeting and a link to “Instructions for board meeting visitors.” See **SUPPLEMENTARY INFORMATION** for further information about attendance requests.

**FOR FURTHER INFORMATION CONTACT:** Dale Aultman, Secretary to the Farm Credit Administration Board (703) 883–4009. TTY is (703) 883–4056.

### SUPPLEMENTARY INFORMATION:

Instructions for attending the virtual meeting: Parts of this meeting of the Board will be open to the public, and parts will be closed. If you wish to observe the open portion, at least 24 hours before the meeting, go to *FCA.gov*, select “Newsroom,” then “Events.” There you will find a description of the meeting and a link to “Instructions for board meeting visitors.” If you need assistance for accessibility reasons or if you have any questions, contact Dale Aultman, Secretary to the Farm Credit Administration Board, at (703) 883–4009. The matters to be considered at the meeting are as follows:

### Open Session

#### Approval of Minutes

- March 11, 2021

#### Report

- Quarterly Report on Economic Conditions and FCS Condition and Performance

#### New Business

- Collateral Evaluation—Proposed Rule

**Closed Session**

- Office of Examination Quarterly Report <sup>1</sup>

Dated: March 29, 2021.

**Dale Aultman,**

*Secretary, Farm Credit Administration Board.*

**BILLING CODE 6705-01-P**

**FEDERAL COMMUNICATIONS COMMISSION**

[OMB 3060-1013; FRS 18114]

**Information Collection Being Reviewed by the Federal Communications Commission**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written PRA comments should be submitted on or before June 1, 2021. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should

advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email to [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

**SUPPLEMENTARY INFORMATION:**

*OMB Control Number:* 3060-1013.

*Title:* Mitigation of Orbital Debris.

*Form Number:* N/A.

*Type of Review:* Revision of an existing collection.

*Respondents:* Business or other for-profit entities, not-for-profit institutions.

*Number of Respondents:* 46 respondents; 46 responses.

*Estimated Time per Response:* 8 hours.

*Frequency of Response:* On occasion reporting requirement.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 301, 303, 307, 308, 309, and 310.

*Total Annual Burden:* 368 hours.

*Annual Cost Burden:* \$88,550.

*Privacy Act Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* In general, there is no need for confidentiality with this collection of information.

*Needs and Uses:* On April 24, 2020, the Commission released a Report and Order, FCC 20-54, IB Docket No. 18-313, titled "Mitigation of Orbital Debris in the New Space Age" (Orbital Debris Report and Order). In this Orbital Debris Report and Order, the Commission updated its rules related to orbital debris mitigation, including application requirements. The new rules are designed to ensure that the Commission's actions concerning radio communications, including licensing U.S. spacecraft and granting access to the U.S. market for non-U.S. spacecraft, mitigate the growth of orbital debris, while at the same time not creating undue regulatory obstacles to new satellite ventures. The action will help to ensure that Commission decisions are consistent with the public interest in space remaining viable for future satellites and systems and the many services that those systems provide to the public. The rule revisions also provide additional detail to applicants on what information is expected under the Commission's rules, which can help to increase certainty in the application filing process. While this information collection represents an overall increase in the burden hours, the information

collection serves the public interest by ensuring that the Commission and public have necessary information about satellite applicants' plans for mitigation of orbital debris.

Specifically, FCC 20-54 contains the new or modified information collection requirements listed below, applicable to applicants seeking experimental licenses for satellite operations under part 5 of the Commission's rules, as well as to license grantees under part 97 submitting notifications to the Commission prior to launch of a satellite amateur station:

(1) Existing disclosure requirements have been revised to include specific metrics in several areas, including: Probability that the space stations will become a source of debris by collision with small debris and meteoroids that would cause loss of control and prevent disposal; probability of collision between any non-geostationary orbit (NGSO) space station and other large objects; and casualty risk associated with any individual spacecraft that will be disposed by atmospheric re-entry.

(2) Where relevant, the disclosures must include the following: Use of separate deployment devices, distinct from the space station launch vehicle, that may become a source of orbital debris; potential release of liquids that will persist in droplet form; and any planned proximity operations and debris generation that will or may result from the proposed operations, including any planned release of debris, the risk of accidental explosions, the risk of accidental collision, and measures taken to mitigate those risks.

(3) The existing disclosure requirement to analyze potential collision risk associated with space station(s) orbits has been modified to specify that the disclosure identify characteristics of the space station(s)' orbits that may present a collision risk, including any planned and/or operational space stations in those orbits, and indicate what steps, if any, have been taken to coordinate with the other spacecraft or system, or what other measures the operator plans to use to avoid collision.

(4) For NGSO space stations that will transit through the orbits used by any inhabitable spacecraft, including the International Space Station, the disclosure must include the design and operational strategies, if any, that will be used to minimize the risk of collision and avoid posing any operational constraints to the inhabitable spacecraft.

(5) The disclosure must include a certification that upon receipt of a space situational awareness conjunction warning, the operator will review and

<sup>1</sup>Closed session is exempt pursuant to 5 U.S.C. 552b(c)(8) and (9).
