**Agency Information Collection
Activities; Submission to the Office of
Management and Budget for Review
and Approval; North American
Woodcock Singing Ground Survey**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of information collection;
request for comment.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995, we,
the U.S. Fish and Wildlife Service
(Service), are proposing to renew an
information collection.

DATES: Interested persons are invited to
submit comments on or before January
19, 2021.

ADDRESSES: Written comments and
recommendations for the proposed
information collection should be sent
within 30 days of publication of this
notice to www.reginfo.gov/public/do/PRAMain. Find this particular
information collection by selecting
“Currently under Review—Open for
Public Comments” or by using the
search function. Please provide a copy
of your comments to the Service
Information Collection Clearance
Officer, U.S. Fish and Wildlife Service,
MS: PRB (JAO/3W), 5275 Leesburg Pike,
Falls Church, VA 22041–3803 (mail); or
by email to Info_Coll@fws.gov. Please
reference OMB Control Number 1018–
0019 in the subject line of your
comments.

Information Collection Clearance
Officer, by email at Info_Coll@fws.gov,
or by telephone at (703) 358–2503.
Individuals who are hearing or speech
impaired may call the Federal Relay
Service at 1–800–877–8339 for TTY
assistance. You may also view the
information collection request (ICR) at
<http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In
accordance with the Paperwork
Reduction Act of 1995 (PRA, 44 U.S.C.
3501 *et seq.*) and 5 CFR 1320.8(d)(1), we
provide the general public and other
Federal agencies with an opportunity to
comment on new, proposed, revised,
and continuing collections of
information. This helps us assess the
impact of our information collection
requirements and minimize the public’s

reporting burden. It also helps the
public understand our information
collection requirements and provide the
requested data in the desired format.

On August 3, 2020, we published in
the **Federal Register** (85 FR 46692) a
notice of our intent to request that OMB
approve this information collection. In
that notice, we solicited comments for
60 days, ending on October 2, 2020. We
received the following comments in
response to that notice:

Comment 1: The Atlantic Flyway
Council expressed its support for
continuation of the survey. Continuation of the survey is critical for
the responsible management of
American woodcock, an important
migratory game bird in the Atlantic
Flyway and North America. The
SURVEY provides the only long-term,
range-wide monitoring program for
American woodcock. The results of the
SURVEY form the basis of the American
woodcock harvest strategy used to set
the annual hunting regulations for
American woodcock in the Atlantic,
Mississippi, and Central Flyways. The
data collection and reporting estimates
provided by the U. S. Fish and Wildlife
Service are reasonable and accurate.

Agency Response to Comment 1: No
action was taken, since the support was
positive and there were no
recommendations for improvement.

As part of our continuing effort to
reduce paperwork and respondent
burdens, we are again soliciting
comments from the public and other
Federal agencies on the proposed
information collection request (ICR) that
is described below. We are especially
interested in public comment
addressing the following:

(1) Whether or not the collection of
information is necessary for the proper
performance of the functions of the
agency, including whether or not the
information will have practical utility;

(2) The accuracy of our estimate of the
burden for this collection of
information, including the validity of
the methodology and assumptions used;

(3) Ways to enhance the quality,
utility, and clarity of the information to
be collected; and

(4) How might the agency minimize
the burden of the collection of
information on those who are to
respond, including through the use of
appropriate automated, electronic,
mechanical, or other technological
collection techniques or other forms of
information technology, *e.g.*, permitting
electronic submission of response.

Comments that you submit in
response to this notice are a matter of
public record. Before including your
address, phone number, email address,

or other personal identifying
information in your comment, you
should be aware that your entire
comment—including your personal
identifying information—may be made
publicly available at any time. While
you can ask us in your comment to
withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Abstract: The Migratory Bird Treaty
Act (16 U.S.C. 703–712) designates the
Department of the Interior as the
primary agency responsible for
managing migratory bird populations
frequenting the United States and
setting hunting regulations that allow
for the well-being of migratory bird
populations. These responsibilities
dictate that we gather accurate data on
various characteristics of migratory bird
populations.

The North American Woodcock
Singing Ground Survey is an essential
part of the migratory bird management
program. Federal, State, Provincial,
Tribal, and local conservation agencies
conduct the survey annually to provide
the data necessary to determine the
population status of the American
woodcock. In addition, the information
is vital in assessing the relative changes
in the geographic distribution of the
species. We use the information
primarily to develop recommendations
for hunting regulations. Without
information on the population’s status,
we might promulgate hunting
regulations that:

- Are not sufficiently restrictive,
which could cause harm to the
woodcock population, or
- Are too restrictive, which would
unduly restrict recreational
opportunities afforded by woodcock
hunting.

The Service, State, and Provincial
conservation agencies, university
associates, and other interested parties
use the data for various research and
management projects.

Title of Collection: North American
Woodcock Singing Ground Survey.

OMB Control Number: 1018–0019.

Form Number: FWS Form 3–156.

Type of Review: Extension of a
currently approved collection.

Respondents/Affected Public: State,
Provincial, local, and Tribal employees.

*Total Estimated Number of Annual
Respondents:* 808.

*Total Estimated Number of Annual
Responses:* 808.

*Estimated Completion Time per
Response:* Varies from 1.75 hours to
1.88 hours, depending on activity.

*Total Estimated Number of Annual
Burden Hours:* 1,515.

Respondent's Obligation: Voluntary.
Frequency of Collection: Annually.
Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Madonna Baucum,

Information Collection Clearance Officer, U.S. Fish and Wildlife Service.
