

PIDP grant funding specifically for performance reporting. For each project selected for award, DOT, with input from the grant recipients, will identify the measures to be collected. Those measures and the reporting requirements will be formalized in the agreement obligating award funds for the project.

c. Port Performance Reporting

DOT is required to report annually on port performance (see Sec. 6314 of the FAST Act). To help DOT more accurately assess port performance, PIDP grant recipients will be required to enter a data sharing agreement to submit to DOT information where consistent data related to the project, particularly on cargo throughput, is not publicly available and difficult to collect from ports and port terminals. Data, which must originate from the port, that will be required as a condition of award may include some or all the following:

- Total capacity of inbound and outbound cargo
- Total volume of inbound and outbound cargo
- Average number of lifts per hour of containers by crane
- Average vessel turn time by vessel type
- Average cargo or container dwell time
- Port storage capacity and utilization
- Modal throughput statistics, including rail and truck turn times
- Types of cargo moved
- Presences and location of intermodal connectors
- Physical size of the terminals within the port boundaries
- Maximum authorized channel depth and maximum actual/current channel depth
- Schedule vessel arrivals (for use in determining vessel on-time performance)
- Berth utilization

Details and definitions on the data elements described above will be provided in the data sharing agreement with DOT.

d. Reporting of Matters Related to Recipient Integrity and Performance

If the total value of a selected applicant's currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, then the applicant during that period of time must maintain the currency of information reported to the SAM that is made available in the designated integrity and performance system

(currently FAPIIS) about civil, criminal, or administrative proceedings described in paragraph 2 of this award term and condition. This is a statutory requirement under section 872 of Public Law 110–417, as amended (41 U.S.C. 2313). As required by section 3010 of Public Law 111–212, all information posted in the designated integrity and performance system on or after April 15, 2011, except past performance reviews required for Federal procurement contracts, will be publicly available.

G. Federal Awarding Agency Contacts

For further information concerning this notice please contact the PIDP staff via email at PIDPgrants@dot.gov, or call Peter Simons, Supervisory Transportation Specialist, Office of Port Infrastructure Development, at 202–366–8921. A TDD is available for individuals who are deaf or hard of hearing at 202–366–3993. In addition, DOT will post answers to questions and requests for clarifications at www.maritime.dot.gov/PIDPgrants. To ensure applicants receive accurate information about eligibility or the program, the applicant is encouraged to contact DOT directly, rather than through intermediaries or third parties, with questions. DOT may also conduct briefings on the PIDP Grants selection and award process upon request.

H. Other Information

1. Protection of Confidential Business Information

All information submitted as part of or in support of any application shall use publicly available data or data that can be made public and methodologies that are accepted by industry practice and standards, to the extent possible. If the applicant submits information that the applicant considers to be a trade secret or confidential commercial or financial information, the applicant must provide that information in a separate document, which the applicant may cross-reference from the application narrative or other portions of the application. For the separate document containing confidential information, the applicant must do the following: (1) State on the cover of that document that it “Contains Confidential Business Information (CBI)”; (2) mark each page that contains confidential information with “CBI”; (3) highlight or otherwise denote the confidential content on each page; and (4) at the end of the document, explain how disclosure of the confidential information would cause substantial competitive harm. DOT will protect confidential information complying

with these requirements to the extent required under applicable law. If DOT receives a Freedom of Information Act (FOIA) request for the information that the applicant has marked in accordance with this section, DOT will follow the procedures described in its FOIA regulations at 49 CFR 7.29. Only information that is in the separate document, marked in accordance with this section, and ultimately determined to be confidential under 7.29 will be exempt from disclosure under FOIA.

2. Publication/Sharing of Application Information

Following the completion of the selection process and announcement of awards, DOT intends to publish a list of all applications received along with the names of the applicant organizations and funding amounts requested. Except for the information properly marked as described in Section H.1., DOT may make application narratives publicly available or share application information within DOT or with other Federal agencies if DOT determines that sharing is relevant to the respective program's objectives.
