

6. Are there specific U.S. intellectual property laws or policies that inhibit growth of SMEs that rely on licensing and implementing standards?

7. Which, if any, actions would be advisable for the Department of Commerce to further explore regarding the interplay of intellectual property and standards, including but not limited to:

- a. educational guidance to SMEs to become more involved in standards;
- b. recommendations for standards development organizations regarding intellectual property policies and enforcement thereof;
- c. a database of judicially determined or otherwise voluntarily-made-public licensing rates for technologies covered by a FRAND commitment; and
- d. other voluntary and/or public disclosures?

8. How can the Department of Commerce reinforce the importance of IP-based incentives for participation in international technology standards development, especially around critical and emerging technologies?

9. What can the Department of Commerce do to mitigate emergence or facilitate the resolution of FRAND licensing disputes? Can requiring further transparency concerning patent ownership make standard essential patent (SEP) licensing more efficient? What are other impediments to reaching a FRAND license that the Department of Commerce could address through policy or regulation?

10. Are there steps that the Department of Commerce can take regarding intellectual property rights policy that will help advance U.S. leadership in standards development and implementation for critical and emerging technologies?

11. Do policy solutions that would require SEP holders to agree collectively on rates or have parties rely on joint negotiation to reach FRAND license agreements with SEP holders create legal risks? Are there other concerns with these solutions?

12. What can the Department of Commerce do to help facilitate the efficient resolution of FRAND disputes? What can the Department of Commerce do with the World Intellectual Property Organization and/or standard setting bodies to promote alternative dispute resolution to more efficiently resolve FRAND disputes?

Katherine K. Vidal,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.
