non-business day, in accordance with Commerce's practice, the deadline will become the next business day. The revised deadline for the final results is now June 24, 2019.

### Scope of Review

The product covered by this Agreement is natural uranium in the form of uranium ores and concentrates; natural uranium metal and natural uranium compounds; alloys, dispersions (including cermetes), ceramic products, and mixtures containing natural uranium or natural uranium compounds; uranium enriched in U<sup>235</sup> and its compounds; alloys, dispersions (including cermetes), ceramic products, and mixtures containing uranium enriched in U<sup>235</sup> or compounds of uranium enriched in U<sup>235</sup>; and any other forms of uranium within the same class or kind.

Imports of uranium ores and concentrates, natural uranium compounds, and all forms of enriched uranium are currently classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 2612.10.00, 2844.10.20, 2844.20.00, respectively. Imports of natural uranium metal and forms of natural uranium other than compounds are currently classifiable under HTSUS subheadings: 2844.10.10 and 2844.10.50. HTSUS subheadings are provided for convenience and Customs purposes. The written description of the scope of this proceeding is dispositive. A full description of the scope of the order is contained in the Issues and Decision Memorandum.<sup>14</sup>

### Analysis

Commerce continues to find, based on record evidence, that ROSATOM was in compliance with the terms of the Agreement and Commerce's February 2, 2010 Statement of Administrative Intent (SAI) during the POR. Commerce has reviewed the information submitted by ROSATOM and found, in particular, no evidence of non-compliance regarding sales or exports in excess of the Agreement's export limits and no evidence of non-compliance regarding the anti-circumvention requirements in

section VII of the Agreement or the reporting requirements in Appendix 3 pursuant to section VIII of the Agreement.

Commerce finds no evidence of non-compliance by TENEX, TENAM, and Centrus during the POR regarding the contract and shipment approval requirements provided for in section V of the Agreement, established by the SAI, and requested by Commerce. We have reviewed the submissions to Commerce requesting approval of contracts or contract amendments applicable to both sales and exports of Russian Uranium Products to the United States during the POR from TENEX, TENAM, and Centrus and find that each party has complied with the contract approval documentation requirements in sections V.C and V.F and Appendix 2 of the Agreement and in the SAI. We note that TENEX failed to provide to Commerce certain contract amendments that changed the material terms of contracts in effect as required by the SAI.<sup>15</sup> However, upon discovery of this lapse, TENEX explained the circumstances under which it occurred and remedied the situation. We find that, while this oversight by TENEX is not insignificant, it does not rise to the level of a violation of the Agreement and does not imperil Commerce's ability to ensure its strict quota accounting through the contract and shipment approval requirements established in the Agreement and the SAI.<sup>16</sup>

Regarding submissions to Commerce requesting approval of a shipment under an approved contract or contract amendment which entered for delivery during the POR, we have reviewed the submissions from TENEX, TENAM, and Centrus and find that each party has complied with the shipment approval documentation requirements established in the Agreement and the SAI and requested by Commerce. Lastly, regarding returned natural uranium feed and associated certification requirements, we find no issues in the submissions from TENEX, TENAM, and Centrus that rise to the level of non-compliance with Commerce's requirements regarding returned natural uranium feed, as specified in its contract and shipment approval memoranda.

Commerce is deferring analysis of whether the Agreement continues to meet the statutory requirements until the next administrative review. This deferral will allow Commerce to conduct a more extensive analysis of a larger time period which it believes is

### International Trade Administration

[A-489-822]

#### **Welded Line Pipe From the Republic of Turkey: Rescission of Antidumping Duty Administrative Review; 2017–2018**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) is rescinding the administrative review of the antidumping duty order on welded line pipe from the Republic of Turkey (Turkey) for the period December 1, 2017, through November 30, 2018.

**DATES:** Applicable June 28, 2019.

**FOR FURTHER INFORMATION CONTACT:** Alice Maldonado or David Crespo, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4682 or (202) 482-3693, respectively.

### Background

On December 3, 2018, Commerce published in the **Federal Register** a notice of “Opportunity to Request Administrative Review” of the antidumping duty order on welded line pipe from Turkey for the period December 1, 2017, through November 30, 2018.<sup>1</sup> In December 2018, Commerce received a timely request, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), to conduct an administrative review of this antidumping duty order from California Steel Industries, TMK IPSCO, Welspun Tubular LLC USA, and Maverick Tube Corporation, (collectively, the petitioners).<sup>2</sup> Based upon this request, on March 14, 2019, in accordance with section 751(a) of the Act, Commerce published in the **Federal Register** a notice of initiation listing 19 companies for which the petitioners requested a review.<sup>3</sup>

On May 23, 2019, the petitioners withdrew their request for an administrative review.<sup>4</sup>

### Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if a party who requested the review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review. The aforementioned withdrawal request was timely submitted, and no other interested party requested an administrative review of any company. Therefore, we are rescinding the administrative review of the antidumping duty order on welded line pipe from Turkey covering the period December 1, 2017, through November 30, 2018.

### Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. Antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice in the *Federal Register*.

### Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of doubled antidumping duties.

### Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial
