Description

Between 1964 and 1972, human remains representing, at minimum, one individual were removed from Caddo County, OK. The human remains were found by a local person (Mr. Voerster) along the shoreline of Fort Cobb Reservoir and in proximity to archeological site 34CD697. The human remains were taken to the Oklahoma Archeological Survey in Norman, OK, where they were examined by archeologist Dr. Richard Drass and identified as part of a human cranium. The human remains are reasonably believed to have come into the possession of the Bureau of Reclamation around January 12, 2012, based on notes from the local collector. Since November 15, 2016, the human remains have been in the custody of the Museum of the Great Plains in Lawton, OK. On January 8, 2021, skeletal inventory and analysis were conducted by Rachel Perash, a contractor working for the Bureau of Reclamation. On July 6, 2022, additional analysis was conducted, by Dr. Peer Moore-Jansen, Chair and Professor of Anthropology at Wichita State University, who confirmed that the remains were human and archeological. No known individual was identified. No associated funerary objects are present.

Repatriation of the human remains in this notice to a requestor may occur on or after June 5, 2023. If competing requests for repatriation are received, the USBR must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The USBR is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.
