k. *Description of Request:* Article 409 requires Malacha Hydro Limited Partnership and Juniper Ridge Ranches, Inc. (licensees) to upgrade existing access to adjacent public lands managed by the U.S. Bureau of Land Management (BLM), including the construction of trail-head parking facilities, within five years from license issuance. The project license was issued on December 2, 1986. Since license issuance, the licensees have been unable to fulfill this license condition due to an on-going land exchange matter between the BLM and a private landowner, whose land is necessary to provide access to the trailhead parking facilities. The BLM land to be exchanged for the landowner's property is located within the Pit River Canyon Wilderness Study Area. The BLM cannot implement the

land exchange until Congress acts to either designate these lands as wilderness or release the lands. Until Congress acts, BLM cannot complete the land exchange and the licensees cannot construct the required trailhead facilities. For these reasons, the licensees request a stay of five years for article 409 to allow Congress additional time to act on the Pit River Canyon Wilderness Study Area.
