

encouraged to include a map of the active areas of the mine under the body of water showing the following: bottom of coal elevations (minimum 10-ft contour intervals); the limits of the body of water and the estimated quantity of water in the pool; the limits of the proposed "safety zone" within which precautions will be taken; overburden thickness (depth of cover) contours; corehole locations; and known faults, lineaments, and other geologic features.

If the body of water is contained within an overlying mine, then MSHA recommends a map of the overlying mine showing bottom of coal elevations (minimum 10-ft contour intervals), when available, corehole locations, the limits of the body of water with the estimated quantity of water in the pool, and interburden to active mine below be provided. Operators are also encouraged to submit the methods that were used to estimate the quantity of water in the pool, borehole logs, including geotechnical information (RQD, fracture logs, etc.) if available; rock mechanics data on the overburden, interburden, mine roof, and mine floor, if available; mining height of the seam being mined, pillar and floor stability analyses for the active mine, whether second mining is planned, whether mining will be conducted down-dip or up-dip, where water will flow to in the active mine if encountered, pumping capabilities for dewatering, a comprehensive evacuation plan for the miners, and a statement of what in-mine conditions would trigger the implementation of the evacuation plan, and training that will be provided to the miners regarding the potential hazards.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Operations Mining Under a Body of Water. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or

other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at DOL-Mine Safety and Health Administration, 201 12th South, Suite 4E401, Arlington, VA 22202-5452. Sign in at the receptionist's desk on the 4th floor via the East elevator. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor's COVID-19 policy. Special health precautions may be required.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Operations Mining Under a Body of Water. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration

OMB Number: 1219-0020.

Affected Public: Business or other for-profit.

Number of Respondents: 50.

Frequency: On occasion.

Number of Responses: 50.

Annual Burden Hours: 275 hours.

Annual Respondent or Recordkeeper Cost: \$680.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Song-ae Aromie Noe,
Certifying Officer.

[OMB Control No. 1219-0001]

Proposed Extension of Information Collection; Certificate of Electrical Training

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Request for public comments.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Certificate of Electrical Training.

DATES: All comments must be received on or before October 18, 2022.

ADDRESSES: Comments concerning the information collection requirements of this notice may be sent by any of the methods listed below.

• *Federal E-Rulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments for docket number MSHA-2022-0033.

• *Mail/Hand Delivery:* Mail or visit DOL-MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452. Before visiting MSHA in person, call 202-693-9455 to make an appointment, in keeping with the Department of Labor's COVID-19 policy. Special health precautions may be required.

• MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: S. Aromie Noe, Director, Office of Standards, Regulations, and Variances, MSHA, at MSHA.information.collections@dol.gov (email); (202) 693-9440 (voice); or (202) 693-9441 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

Under section 305(g) of the Mine Act, all electric equipment located at a coal mine shall be frequently examined, tested, and properly maintained by a qualified person to assure safe operating conditions. The determination of a person as qualified to examine, test, and maintain electric equipment at a coal mine is further defined under the provisions of Title 30 CFR 75.153 and 77.103.

Title 30 CFR 75.153 and 77.103 define a person as qualified to perform electrical work if he has been qualified as a coal mine electrician by a State that has a coal mine electrical qualification program approved by MSHA; or if he has at least 1 year of experience performing electrical work underground in a coal mine, in a surface coal mine, in a noncoal mine, in the mine equipment manufacturing industry, or in any other industry using or manufacturing similar equipment, and has satisfactorily completed a coal mine electrical training program approved by MSHA or has attained a satisfactory grade on a series of five written tests approved by MSHA.

MSHA Form 5000–1 is completed and submitted by those individuals providing both the initial and subsequent annual training necessary to meet the requirements of Title 30 CFR 75.153 and 77.103 for individuals qualified to examine, test, and maintain electrical equipment. MSHA Form 5000–1 provides the coal mining industry with a standardized reporting format that expedites the certification process while ensuring compliance with the regulations. The information provided on the form enables MSHA to determine if the applicants satisfy the requirements to obtain the certification or qualification.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Certificate of Electrical Training. MSHA is

particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at DOL–Mine Safety and Health Administration, 201 12th South, Suite 4E401, Arlington, VA 22202–5452. Sign in at the receptionist's desk on the 4th floor via the East elevator. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor's COVID–19 policy. Special health precautions may be required.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Certificate of Electrical Training. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219–0001.

Affected Public: Business or other for-profit.

Number of Respondents: 294.

Frequency: On occasion.

Number of Responses: 1,632.

Annual Burden Hours: 772 hours.

Annual Respondent or Recordkeeper Cost: \$299.

MSHA Forms: MSHA Form 5000–1, Certificate of Electrical Training.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Occupational Safety and Health Administration

[Docket No. OSHA–2009–0025]

UL LLC: Application for Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the application of UL LLC for expansion of the scope of recognition as a Nationally Recognized Testing Laboratory (NRTL) and presents the agency's preliminary finding to grant the application.

DATES: Submit comments, information, and documents in response to this notice, or requests for an extension of time to make a submission, on or before September 6, 2022.

ADDRESSES: Submit comments by any of the following methods:

Electronically: You may submit comments and attachments electronically at: <https://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download submissions or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the above address. All documents in the docket are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection at the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627) for assistance in locating docket submissions.
