As extended, the withdrawal would not alter the applicability of those public land laws governing the use of lands under lease, license, or permit or governing the disposal of the mineral or vegetative resources other than under the mining laws.

The use of a right-of-way or interagency or cooperative agreement would not adequately protect the paleontological resources and capital improvements in these areas.

There are no suitable alternative sites available. Significant cultural resources are located at the quarry site.

Water will not be needed to fulfill the purposes of the withdrawal.
