

The Selection Committee shall automatically terminate no later than August 31, 2023.

Nomination Information

All nominations for membership on the Selection Committee should provide the following information:

- Name and relevant contact information (including phone number and email address) of the nominee;
- A short statement (no more than 500 words) of interest in or fit for the role;
- A short biography of relevant credentials;
- An affirmative statement that the nominee meets all eligibility requirements.

Nominations should be emailed to Kevin Kimball, Senior Advisor, CHIPS R&D Office, U.S. Department of Commerce, NIST, 100 Bureau Drive, MS1000, Gaithersburg, MD 20899; email: FRN@chips.gov, and must be received on or before 5:00 p.m. EST on May 10, 2023.

Privacy Act Statement

The collection, maintenance, and disclosure of this information is governed by the Privacy Act of 1974 (5 U.S.C. 552a). The Department of Commerce is authorized to collect this information pursuant to authorities that include but are not limited to: 15 U.S.C. 1512; 15 U.S.C. 4656, 4659. The principal purposes for which the Department will use the information is to assist in choosing members of the Selection Committee. Information received will be maintained in a Privacy Act system of records, COMMERCE/DEPT-23, entitled "Information Collected Electronically in Connection with Department of Commerce Activities, Events, and Programs." A notice describing that system, including a complete set of routine disclosures, has been published both in the **Federal Register** and on the Department's website at: <https://www.osec.doc.gov/opog/privacyact/SORNs/dept-23.html>.

Disclosing this information to the Department of Commerce is voluntary. However, if you do not provide this information, or only provide part of the information requested, you may not be considered for membership on the Selection Committee. The nominations the Department receives for the Selection Committee may be shared with the Selection Committee; the Selection Committee may or may not use the nominations to identify board members to form an independent, non-profit entity that the Department anticipates will serve as the operator of the NSTC. By submitting your

application, you agree to these disclosure terms.

Authority: 15 U.S.C. 4656, 4659.

Alicia Chambers,

NIST Executive Secretariat.

[RTID 0648-XC886]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's Mackerel, Squid, and Butterfish Monitoring Committee will hold a public webinar meeting.

DATES: The meeting will be held on Friday, May 12, 2023, from 1 p.m. to 3 p.m. EDT. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be held via webinar. Information on how to connect to the webinar will be posted to <https://www.mafmc.org/council-events/>.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; www.mafmc.org.

FOR FURTHER INFORMATION CONTACT:

Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The objectives of this meeting are for the Monitoring Committee to: (1) Review recent butterfish and Atlantic chub mackerel fishery performance and recommendations from the Advisory Panel, the Scientific and Statistical Committee, and Council staff; (2) Review, and if appropriate, recommend changes to the previously implemented 2024 butterfish and chub mackerel specifications. Meeting materials will be posted to www.mafmc.org.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Shelley Spedden, (302) 526-5251 at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 21, 2023.

Key Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XC943]

Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Notice for Exempted Fishing Permit Application

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Regional Administrator, West Coast Region, NMFS, announces receipt of an exempted fishing permit (EFP) application, and is considering issuance of an EFP for a third party Electronic Monitoring (EM) provider who would provide EM services for vessels participating in the existing EM EFP fisheries, and also to the vessels participating in this EFP. NMFS requests public comment on the application.

DATES: Comments must be received by May 11, 2023.

ADDRESSES: You may submit comments on this document, identified by NOAA-NMFS-2023-0063 by the following method:

- *Electronic Submissions:* Submit all public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov and enter NOAA-NMFS-2023-0063 in the Search box. Click on the "Comment" icon, complete the required fields, and enter or attach your comments. The EFP application will be available under Supporting and Related Materials through the same link.

- *Instructions:* Comments must be submitted by the above method to ensure that the comments are received, documented, and considered by NMFS. Comments sent by any other method or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be

publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Matt Dunlap, West Coast Region, NMFS, (206) 316-7944, matthew.dunlap@noaa.gov.

SUPPLEMENTARY INFORMATION: This action is authorized by the Pacific Coast Groundfish Fishery Management Plan and the regulations implementing the Magnuson-Stevens Fishery Conservation and Management Act at 50 CFR 600.745, which state that exempted fishing permits (EFP) may be used to authorize fishing activities that would otherwise be prohibited.

On June 28, 2019 (84 FR 31146), at the recommendation of the Pacific Fishery Management Council (Council), NMFS published a final rule that authorized the use of EM in place of human observers to meet requirements for 100-percent at-sea monitoring for catcher vessels in the groundfish trawl catch share fishery (Trawl Rationalization Program). EM video systems are used to record catch and discards by the vessel crew while at sea. Vessel operators are responsible for recording catch and discards in a logbook, which is then used to debit individual fishing quota (IFQ) accounts and cooperative allocations. The Council recommended, and NMFS implemented, a delay to the start of the regulatory program (86 FR 5525, October 6, 2021) until January 2024.

FlyWire, the EFP applicant, seeks to test the third party EM service provider model during the delay, as described in the EM program manual and associated guidelines and under 50 CFR 660.603 and 660.604. The West Coast EM regulatory program established requirements for vessel owners and operators, standards for EM systems, and protocols for handling catch while using EM systems in the Catch Share Program. The EM program also established requirements for third party EM Service Providers, which are companies tasked with providing EM services to the fleet. EM service providers are responsible for the installation and technical support of EM systems, and the collection and review of EM video data. EM vessels submit logbooks to report catch and discard information to NOAA Fisheries, and video data is used to audit logbooks to ensure information is accurately reported. If approved, the applicant would test alternative catch handling

approaches for bottom trawl designed to reduce the time and labor burden for vessel crew, in addition to testing the third party model in the maximized retention Pacific whiting fleet. The applicant anticipates providing EM services to approximately five vessels that would participate in the EFP. While the applicant seeks an exemption from the requirement for vessels to carry an at-sea observer, all catch and effort would be covered by existing Individual Fishing Quota, Coop allocations, and associated National Environmental Policy Act and Endangered Species Act analyses. Observers will be required for initial "shakedown" cruises, but an observer exemption will be granted for this EFP if the equipment and vessel monitoring plans are consistent with the existing EM EFP guidelines.

If approved, NMFS would issue the permits for the EFP project to the applicant and vessel owners or designated representatives as the "EFP holder." NMFS intends to use an adaptive management approach in which NMFS may revise requirements and protocols to improve the program without issuing another **Federal Register** notice, provided that the modifications fall within the scope of the original EFP. NMFS would also accept additional applications to participate in the same, or similar, exempted fishing activity.

The Regional Administrator has made a preliminary determination that the applications described above contain all of the required information and constitute an activity appropriate for further consideration. After publication of this document in the **Federal Register**, and review and consideration of any public comments received, NMFS may approve and issue permits for the EFP project. NMFS may approve the application in its entirety or may make any alterations needed to achieve the goals of the EFP.

Authority: 16 U.S.C. 1801 *et seq.*; 50 CFR 600.745. This action is authorized by the Pacific Coast Groundfish Fishery Management Plan and the regulations implementing the Magnuson-Stevens Fishery Conservation and Management Act at 50 CFR 600.745, which state that exempted fishing permits (EFP) may be used to authorize fishing activities that would otherwise be prohibited.

Dated: April 20, 2023.

Kelly Denit,

*Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XC932]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's (MAFMC's) Summer Flounder, Scup, and Black Sea Bass Monitoring Committee will hold a public meeting jointly with the Atlantic States Marine Fisheries Commission (ASMFC) Summer Flounder, Scup, and Black Sea Bass Technical Committee.

DATES: The meeting will be held on Thursday, May 11, 2023, from 1 p.m. to 4 p.m. EDT. For agenda details, see **SUPPLEMENTARY INFORMATION**.

ADDRESSES: The meeting will be held via webinar. Connection information will be posted to the calendar at www.mafmc.org prior to the meeting.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The MAFMC Summer Flounder, Scup, and Black Sea Bass Monitoring Committee and ASMFC Technical Committee will meet jointly to discuss several issues in preparation for additional meetings later in 2023 regarding 2024 recreational management measures for black sea bass and 2024-25 recreational measures for scup and summer flounder. During this meeting, the groups will discuss the configuration of the Recreational Demand Model and any potential modifications that may be needed. They will also review the process and timeline for setting recreational measures used for 2023 and consider potential improvements to the process for setting measures for the upcoming fishing year(s).

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to
