Notice of Lodging of Consent Decree Under the Clean Water Act 33 U.S.C. 1251 to 1387

Notice is hereby given that on July 18, 2002, a proposed Consent Decree in *United States v. Asarco Incorporated*, Civil Action No. 98-49-H-CCL was lodged with the United States District Court for the District of Montana, Helena Division.

In this action the United States alleges under section 309(b) and (d) of the Clean Water Act (the "Act"), 33 U.S.C. 1319(b) and (d), that Asarco violated certain conditions of the Act's categorical pretreatment program which regulates industrial users who discharge to publicly owned treatment works ("POTWs"). Specifically, the United States alleged that from May 1991 to December 1997, Asarco discharged plant process wastewater from its smelting facility to the East Helena, Montana POTW in excess of monthly average effluent limits for lead and zinc applicable to primary lead processing plants under 40 CFR 421.75. The Complaint also alleged that beginning in November 1991 and continuing through November 1994 Asarco violated the Act's reporting requirements by failing to include in Asarco's semi-annual Periodic Reports on Continuing Compliance data describing the nature and concentration of pollutants in Asarco's discharge to the POTW as required under 40 CFR 403.12. The proposed Consent Decree resolves all allegations raised in the United States Complaint against Asarco in exchange for a civil penalty of \$100,000.00 paid over two years, the performance of several Supplemental Environmental Projects ("SEPs") estimated to be worth

in total \$169,852.00, and other consideration worth \$15,480.00.
