If RUS finds, based on the EA, that the proposed action will not have a significant effect on the quality of the human environment, RUS will prepare a Finding of No Significant Impact (FONSI). Public notification of a Finding of No Significant Impact would be published in the **Federal Register** and in newspapers with circulation in the project area. RUS may take its final action on proposed actions requiring an EA (§ 1794.23) any time after publication of applicant notices that a FONSI has been made and any required review period has expired. When substantive comments are received on the EA, RUS may provide an additional period (15 days) for public review following the publication of its FONSI determination. Final action will not be taken until this review period has expired. Where appropriate to carry out the purposes of NEPA, RUS may impose, on a case-by-case basis, additional requirements associated with the preparation of an EA. If at any point in the preparation of an EA, RUS determines that the proposed action will have a significant effect on the quality of the human environment, the preparation of an Environmental Impact Statement will be required.

Any final action by RUS related to the proposed action will be subject to, and contingent upon, compliance with all relevant Federal, State, and local environmental laws and regulations and completion of the environmental review requirements as prescribed in the RUS Environmental Policies and Procedures (7 CFR part 1794).

SUPPLEMENTARY INFORMATION:

Background and Purpose

Section 4402 of the Food, Conservation and Energy Act of 2008 (Pub. L. 110-246) amended section 25 of the Food and Nutrition Act of 2008 which requires that the Secretary of Agriculture provide a grant to a nonprofit organization to establish and support a healthy urban food enterprise development center. The purpose of the HUFED Center is to increase access to healthy, affordable foods, including locally produced agricultural products, to underserved communities. The HUFED Center will provide training and technical assistance for healthy food enterprises and award sub-grants to eligible entities for healthy food enterprise development. The HUFED Center shall provide two main functions: (1) Provide for training and technical assistance (T&TA) for healthy food enterprises; and (2) implement a competitive sub-grant program for healthy food enterprises.

The HUFED Center was created to respond to the need to redevelop a food enterprise structure in the United States in order to make more healthy, affordable food available in low-income areas, to improve access for small and mid-sized agricultural producers, and to promote the positive economic activities generated from attracting food enterprises into underserved communities.

The estimated amount available for support of this program in FY 2009 is \$900,000. The eligibility criteria for the project and applicants, and the application forms and associated instructions needed to apply for a HUFED Center award can be accessed through the Grants.gov Web site at <http://www.grants.gov>.
