Electronic Access

This document is accessible via the Internet at the Office of the Federal Register’s Web site at <http://www.gpo.gov/fdsys/search/home.action>. Background information and documents are available at the Pacific Fishery Management Council’s Web site at <http://www.pcouncil.org/>.

Background

This document announces the reapportionment of 28,000 mt of Pacific whiting from the tribal allocation to the non-tribal commercial sectors on October 4, 2012. This action is authorized by regulations implementing the Pacific Coast Groundfish Fishery Management Plan (FMP), which governs the groundfish fishery off Washington, Oregon, and California. Regulations at 50 CFR 660.131(h) contain provisions that allow the Regional Administrator to make Pacific whiting tribal allocation specified at § 660.50 that will not be harvested by the tribal fisheries available for harvest to other sectors of the trawl fishery. For 2012 the Washington Coast treaty tribes were allocated 48,556 mt of Pacific whiting. The best available information through

October 2, 2012 indicated that less than 1,000 mt of the tribal allocation had been harvested. Approximately 28,000 mt of the 2012 tribal allocation are projected to go unharvested. Therefore, to ensure full utilization of the resource, NMFS reapportioned 28,000 mt to the shorebased IFQ, catcher/processor and mothership sectors in proportion to each sector’s original allocation on October 4, 2012. Reapportioning this amount is not expected to limit tribal harvest opportunities for the remainder of the year.

The revised Pacific whiting allocations for 2012 are: Tribal 20,556 mt, catcher/processor 55,584 mt; mothership 39,235 mt; and shorebased IFQ 68,662 mt. Emails sent directly to fishing businesses and postings on the Northwest Region’s internet site were used to provide actual notice to the affected fishers.

Classification

The Assistant Administrator for Fisheries, NOAA (AA), finds that good cause exists for this notification to be issued without affording prior notice and opportunity for public comment pursuant to 5 U.S.C. 553(b)(B) because such notification would be impracticable and contrary to the public interest. As previously noted, actual notice of the reapportionment was provided to fishers. Prior notice and opportunity for public comment was impracticable because NMFS had insufficient time to provide prior notice and the opportunity for public comment between the time the information about the progress of the fishery needed to make this determination became available and the time at which fishery modifications had to be implemented in order to allow fishers access to the available fish during the remainder of the fishing season. Reapportioning as quickly as possible was necessary to allow fishers access to the available fish prior to the onset of weather conditions that would make fishing unsafe. For the same reasons, the AA also finds good cause to waive the 30-day delay in effectiveness required under 5 U.S.C. 553(d)(3).

These actions are authorized by 50 CFR sections 660.55 (i), 660.60(d) and 660.131(h) and are exempt from review under Executive Order 12866.

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Vessels Using Pot Gear in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for Pacific cod by vessels using pot gear in the Central Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to fully use the 2012 Pacific cod total allowable catch (TAC) apportioned to vessels using pot gear in the Central Regulatory Area of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 29, 2012, through 2400 hrs, A.l.t., December 31, 2012. Comments must be received at the following address no later than 4:30 p.m., A.l.t., November 13, 2012.

ADDRESSES: You may submit comments, identified by NOAA–NMFS–2012–0216, by any one of the following methods:

• *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal www.regulations.gov. SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS closed directed fishing for Pacific cod by vessels using pot gear in

the Central Regulatory Area of the GOA under § 679.20(d)(1)(iii) on October 12, 2012 (77 FR 62464, October 15, 2012).

As of October 23, 2012, NMFS has determined that approximately 300 metric tons of Pacific cod remain in the directed fishing allowance of the Pacific cod TAC apportioned to vessels using pot gear in the Central Regulatory Area of the GOA. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully utilize the 2012 TAC of Pacific cod apportioned to vessels using pot gear in the Central Regulatory Area of the GOA, NMFS is terminating the previous closure and is reopening directed fishing for Pacific cod by vessels using pot gear in the Central Regulatory Area of the GOA, effective 1200 hrs, A.l.t., October 29, 2012.

The Administrator, Alaska Region (Regional Administrator) considered the following factors in reaching this decision: (1) The current catch of Pacific cod by vessels using pot gear in the Central Regulatory Area of the GOA and, (2) the harvest capacity and stated intent on future harvesting patterns of vessels in participating in this fishery.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from

responding to the most recent fisheries data in a timely fashion and would delay the opening of the directed Pacific cod fishery by vessels using pot gear in the Central Regulatory Area of the GOA. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet and processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of October 23, 2012.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Without this inseason adjustment, NMFS could not allow Pacific cod fishery by vessels using pot gear in the Central Regulatory Area of the GOA to be harvested in an expedient manner and in accordance with the regulatory schedule. Under § 679.25(c)(2), interested persons are invited to submit written comments on this action to the above address until November 13, 2012.

This action is required by § 679.25 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*
