

conference center is now open space on the north side of Wilson Dam.

Based on the results of the previous public interaction for projects on the Muscle Shoals and Wilson Reservations, TVA anticipates that the EA or EIS will include discussion of the potential effects of alternatives on the following resources: visual resources, cultural resources, threatened and endangered species, terrestrial ecology, wetlands, recreation, water quality, aquatic ecology, and socioeconomics.

TVA is interested in receiving additional comments on the issues to be addressed. Written comments on the scope of the environmental review should be received on or before February 25, 2002.

TVA will begin by developing an EA for the proposed project. In the event that information gathered or analyses conducted in preparing this EA indicate that the proposal could have a significant impact on the environment, the agency will prepare an EIS. If TVA decides to prepare an EIS, the scoping process now underway for the EA will be used for the EIS and will not be repeated.

TVA will hold public meetings to provide more information and to receive comments on the Shoals proposals the week of February 11, 2002. Times, locations, and places will be announced in local newspapers, and may be obtained by contacting the persons listed above.

Dated: January 17, 2002.

Kathryn J. Jackson,

Executive Vice President, River System Operations & Environment.
