

Gainesville, FL; University of Mississippi, University, MS; University of Texas at Austin, Austin, TX; UXB International, Inc., Blacksburg, VA; and West Virginia University Research Corporation, Morgantown, WV.

Also, the following parties have been removed as parties to this venture: Advanced Technology & Research Corporation, Burtonsville, MD; Allied Signal Federal Manufacturing & Technologies, Kansas City, MO; Alliant Missile Products Co LLC, Hopkins, MN; Applied Ordnance Technology, Inc., Waldorf, MD; Business Plus Corporation, Denville, NJ; Bulova Technologies LLC, Lancaster, PA; CFD Research Corporation, Huntsville, AL; Climax Molybdenum Corp., Tempe, AZ; Eaton Associates, LaPorte, IN; Energetic Materials Research and Testing Center, Socorro, NM; Enig Associates, Inc., Silver Spring, MD; Flurochem, Inc., Azusa, CA; GEO-CENTERS, Inc., Newton Centre, MA; General Dynamics Armament Systems, Burlington, VT; Highly Filled Materials Institute, Stevens Institute of Technology, Hoboken, NJ; Iowa Army Ammunitions Plant, Niddletown, IA; KVA Advanced Technologies, Inc., Carson City, NV; Loki Inc., Rolla, MO; Marconi Aerospace Defense Systems, Inc., Austin, TX; Material Processing & Research, Inc. Hoboken, NJ; N. Bruns Corporation, Alexandria, VA; Mitretek Systems, Inc., McLean, VA; Office of Research Services, Rolla, MO; Powdermet, Inc., Sun Valley, CA; Primex Technologies, Inc., St. Petersburg, FL; Quantic Industries, Inc., San Carlos, CA; Raytheon Systems Company, Tewksbury, MA; RTF Industries, Marshall, TX; SRI International, Menlo Park, CA; STREASAU Laboratory, Inc., Spooner, WI; Talley Defense Systems, Inc., Mesa, AZ; Thermo Power Corporation, Waltham, MA; Thiokol Propulsion Group, Brigham City, UT; and United Defense, LP, Armament Services Division, Minneapolis, MN.

The nature and objectives of the venture are to conduct innovative research and development, leading to technology demonstrations that further the state of the art in the area of warheads and energetics needed to develop and transition new technologies into weapon systems to support the advancement of future war fighting. NWEAC is a consortium of companies and academic institutions brought together to enhance the warfighter's lethality and survivability by leveraging the nation's industrial and academic research and development bases to advance and expand our military technological superiority in critical

fields of warheads, explosives, propellants, pyrotechnics, fuze/sensors, demilitarization, enabling technologies, and insensitive munitions.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and NWEAC intends to file additional written notifications disclosing all changes in membership.

On May 2, 2000 NWEAC Filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on June 30, 2000 (65 FR 40693).

Patricia A. Brink,

Deputy Director of Operations, Antitrust Division.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—National Shipbuilding Research Program (“NSRP”)

Notice is hereby given that, on April 16, 2009, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), National Shipbuilding Research Program (“NSRP”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. The following members have changed their names: Newport News Shipbuilding and Dry Dock Co. to Northrop Grumman Shipbuilding, Inc., Newport News, VA; Northrop Grumman Ship Systems, Inc. (Ingalls Operation) to Northrop Grumman Shipbuilding, Inc.—Gulf Coast Operations (Pascagoula Shipyard) Pascagoula, MS; and Northrop Grumman Ship Systems, Inc. (Avondale Operations) to Northrop Grumman Shipbuilding, Inc.—Gulf Coast Operations (Avondale Shipyard), Avondale, LA.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and NSRP intends

to file additional written notification disclosing all changes in membership.

On March 13, 1998, NSRP filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on January 29, 1999 (64 FR 4708).

The last notification was filed with the Department on December 20, 2007. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on February 8, 2008 (73 FR 7591).

Patricia A. Brink,

Deputy Director of Operations, Antitrust Division.

Notice Pursuant to the National Cooperative Research and Production Act of 1993—National Glass Association

Notice is hereby given that, on April 23, 2009, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), the National Glass Association (“NGA”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the name and principal place of business of the standards development organization is the National Glass Association, McLean, VA. The nature and scope of NGA's standards development activities are the development of an Automotive Glass Replacement Uniform Labeling of Adhesives Standard (“AGRULA”). The goal of AGRULA is to provide suppliers of auto glass replacement adhesive products a system of labeling their products that is consistent with other suppliers of similar products and to provide a standardized system of labeling so that retailers are able to find the information they need in an easily recognizable manner to make all products traceable to the individual auto glass installation, regardless of
