

application under Rule of Practice 194 with respect to certain associated persons that are subject to a statutory disqualification, as provided for in paragraph (h) of Rule of Practice 194. To meet those requirements, however, the SBS Entity is required to file a notice with the Commission.

It is estimated that approximately 50 entities may fit within the definition of security-based swap dealer and up to five entities may fit within the definition of major security-based swap participant—55 SBS Entities in total. The Commission anticipates that, on an average annual basis, only a small fraction of the natural persons at an SBS Entity would be subject to a statutory disqualification. Accordingly, based on available data, the Commission estimates that, on an average annual basis, the Commission would receive up to five applications in accordance with Rule of Practice 194 with respect to associated persons that are natural persons, and five notices pursuant to proposed Rule of Practice 194(h) with respect to associated persons that are natural persons. The Commission estimates that the average time necessary for an SBS Entity to research the questions, and complete and file an application under Rule of Practice 194 with respect to associated persons that are natural persons is approximately 30 hours, for a total of approximately 150 burden hours per year for all SBS Entities. The Commission estimates that approximately five SBS Entities will provide notices pursuant to Rule of Practice 194(h) for one natural person each on an average annual basis taking approximately 6 hours per notice, for a total of approximately 30 burden hours per year for all SBS Entities providing the notices for an estimated five natural persons. As such, the combined estimated annual hour burden for all SBS Entities to complete applications and notices pursuant to Rule of Practice 194 is approximately 180 hours per year (150 + 30).
