

one time data collection questionnaire. Each CBO will be asked to answer questions related to the existence and importance of factors affecting their HIV prevention interventions. This data collection is necessary for CDC to better (a) assess CBO applications systematically for funding, (b) develop materials CBOs can use to assess their own programmatic needs and create a social map of their target populations,

including a CBO profile of organizational, environmental, target population, intervention program and accomplishments characteristics, (c) better develop CBO technical assistance (TA) materials, and (d) provide TA to CBOs that have already been selected by CDC for funding. This study will also yield more hypotheses for statistical testing, instruments with reliability and validity data for use in other studies,

and a model that can be used and revised to meet the context of a particular CBO. The questionnaire will be administered to 766 CBOs that have applied for CDC funding under program announcements 00023, 00100, 99047, 99091, 99092, 99096. The total response burden for this data collection is 1532 hours.

Respondents	Number of respondents	Number of responses per respondent	Avg. burden per response (in hrs.)
Model Survey	766	1	2

Dated: July 12, 2001.

Nancy Cheal,

Acting Associate Director for Policy, Planning, and Evaluation Centers for Disease Control and Prevention (CDC).

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these

requests, call the CDC Reports Clearance Officer at (404) 639-7090. Send written comments to CDC, Desk Officer; Human Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Project

Assessing the Effectiveness of Community-Based Organizations (CBOs) for the Delivery of HIV Prevention Intervention: Process Evaluation—New—Centers for Disease Control and Prevention (CDC), National Center for HIV, STD, and TB Prevention (NCHSTP) proposes to evaluate HIV prevention programs in community-based organizations (CBOs) through a quarterly and annual reporting system. This evaluation is necessary to understand the impact of CDC's expenditures and efforts to support CBOs, and for modifying and improving the prevention efforts of CBOs. This

data collection will provide CDC with standardized data which will allow CDC to (a) determine the extent to which HIV prevention efforts have contributed to a reduction in HIV transmission nationally; (b) improve programs to better meet the goal of reducing HIV transmission; (c) help focus technical assistance and support; and (d) be accountable to stakeholders by informing them of progress made in HIV prevention nationwide. CDC currently funds 181 CBOs.

Each CBO will be asked to report on the following types of interventions that it has implemented (a) individual level interventions; (b) group level interventions; (c) street and community outreach; (d) prevention case management; (e) partner counseling and referral services; (f) health communications/public information; (g) community level interventions; and (h) HIV antibody counseling and testing.

The total response burden for this data collection is 1,810 hours.

Respondents	Number of respondents	Number of responses	Avg. burden per response (in hrs.)
Intervention Plan	181	1	2
Process Monitoring	181	4	2

Dated: July 12, 2001.

Draft Research Agenda for the National Center for Injury Prevention and Control

AGENCY: Centers for Disease Control and Prevention, Department of Health and Human Services.

ACTION: Notice of the availability of draft research agenda and request for comments.

SUMMARY: The Centers for Disease Control and Prevention (CDC) announces the availability of the Draft Research Agenda for the National Center for Injury Prevention and Control (NCIPC) and solicits comments during the public comment period of July 18, 2001, through August 20, 2001. Over the past year, NCIPC has been developing a research agenda based on input from internal staff and external experts in the
