(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Dated: November 26, 2008.

Michael K. Buckley,

Acting Assistant Administrator, Mitigation Directorate, Department of Homeland Security, Federal Emergency Management Agency.

[FR Doc. E8-29068 Filed 12-8-08; 8:45 am]

BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-B-1016]

Proposed Flood Elevation Determinations; Correction

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects the table to a proposed rule published in the **Federal Register** of November 5, 2008. This correction clarifies the table representing the flooding source(s), location of referenced elevation, the effective and modified elevation in feet and the communities affected for Marshall County, Illinois, and Incorporated Areas; specifically, for flooding source "Sandy Creek

Tributary,” that was previously published.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2903.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1-percent-annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed BFEs are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are

made final, and for the contents in these buildings.

Correction

In proposed rule FR Doc. E8-26306, beginning on page 65811 in the issue of November 5, 2008, make the following corrections, in the table published under the authority of 44 CFR 67.4. On page 65813, in § 67.4, in the table with center heading Marshall County, Illinois, and Incorporated Areas, the flooding source, location of referenced elevation, the effective and modified elevation in feet and the communities affected for flooding source “Sandy Creek Tributary”, needs to be corrected to read as follows:

| Flooding source(s) | Location of referenced elevation ** | * Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground | | Communities affected |
|---|---|--|----------|--|
| | | Effective | Modified | |
| * | * | * | * | * |
| Marshall County, Illinois and Incorporated Areas | | | | |
| Sandy Creek Tributary | From intersection of County Highway 14 | None | +673 | Marshall County (Unincorporated Areas) and City of Wenona. |
| | To approximately 140 feet northwest of the intersection of Hickory Street and South 5th Street in the City of Wenona. | None | +686 | |
| * | * | * | * | * |

Dated: November 26, 2008.

Michael K. Buckley,

Acting Assistant Administrator, Mitigation Directorate, Department of Homeland Security, Federal Emergency Management Agency.

50 CFR Part 17

[FWS-R8-ES-2008-0067; MO 9221050083-B2]

Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To Reclassify the Delta Smelt (*Hypomesus transpacificus*) From Threatened to Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding; reopening of the information solicitation period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the reopening of the public information solicitation period on the July 10, 2008, 90-day finding on a petition to reclassify

the delta smelt (*Hypomesus transpacificus*) from threatened to endangered under the Endangered Species Act of 1973, as amended (Act). This action will provide all interested parties with an additional opportunity to submit information and materials on the status of delta smelt. Information previously submitted need not be resubmitted as it will already be incorporated into the public record and will be fully considered in the 12-month finding.

DATES: We are reopening the public information solicitation period and request that we receive information on or before February 9, 2009.

ADDRESSES: You may submit information by one of the following methods:
