Title: Reporting Requirements Under EPA's Green Power Partnership and Combined Heat and Power (CHP) Partnership.

Abstract: In an effort to aid implementation of the President's May 2001 National Energy Strategy, as well as the President's February 2002 Climate Change Strategy, EPA has launched two new partnership programs with industry and other stakeholders: the Green Power Partnership and the CHP Partnership. These partnership programs encourage organizations to invest in clean, efficient energy technologies, including renewable energy and CHP.

The EPA has developed this ICR to obtain authorization to collect information from organizations

participating in the Green Power Partnership and CHP Partnership to ensure that they are meeting their voluntary renewable energy and CHP goals and to assure the credibility of these partnership programs. Organizations that join these programs voluntarily agree to the following respective actions: (1) Designating a Green Power or CHP Partnership liaison; (2) for the Green Power Partnership, reporting to EPA, on an annual basis, their progress toward their green power commitment via a 1-page Green Power Partner Yearly Report; (3) for the CHP Partnership, reporting to EPA information on their existing CHP projects and project development activity via the CHP Partner Projects Data Form. The EPA uses the data obtained from its Partners to assess the success of these programs in achieving their national energy and greenhouse gas reduction goals.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden Statement: The annual public reporting and recordkeeping burden for this three (3) year collection of information is estimated to equal 3980 hours and to average 3.4 hours per year per respondent. The average number of annual burden hours per type of response is: 4.9 hours for a Letter of Intent (a one-time burden for Green Power and CHP Partners); for the Green Power Partnership, 2.4 hours for the Green Power Partner Yearly Report; for the CHP Partnership, 2.0 hours for end user Partners to complete the CHP Partner Projects Data Form report on completed CHP projects (a one-time report), or 1.7 hours per year for CHP project updates for Partners with ongoing CHP project development activities. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of

information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Corporations, institutions, state, local, and tribal agencies that voluntarily agree to work with EPA to purchase or market green power or to support the use of CHP.

Estimated Number of Respondents: 1,164.

Frequency of Response: Annually, semiannually.

Estimated Total Annual Hour Burden: 3,980 hours.

Estimated Total Annual Costs: \$298,886, which includes \$0 annualized capital/startup costs, \$3,248 annual O&M costs, and \$295,638 annual labor costs.

Changes in the Estimates: This does not apply, as this is a new collection.

Dated: October 20, 2005.

Sara Hisel-McCoy,

Acting Director, Collection Strategies Division.
