ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Black Bayou pontoon bridge across the Gulf Intracoastal Waterway, mile 237.5, near Moss Lake, Louisiana. DATES: This deviation is effective without actual notice from December 4, 2013 until December 19, 2013. For the purposes of enforcement, actual notice will be used from the date the deviation was signed, November 14, 2013, until December 19, 2013.

SUPPLEMENTARY INFORMATION: The Louisiana Department of Transportation and Development has requested a temporary deviation from the operating

schedule on the pontoon bridge across the Gulf Intracoastal Waterway at mile 237.5 near Moss Lake, Louisiana.

In accordance with 33 CFR 117.5, except as otherwise authorized or required by this part, drawbridges must open promptly and fully for the passage of vessels when a request or signal to open is given in accordance with this subpart. The draw bridge must return to operation when the work has stopped for any reason. This temporary deviation allows the pontoon bridge to remain closed to navigation from 7 a.m. to 5 p.m., Monday through Thursday, during 3 weeks beginning December 2, 2013 through Thursday, December 19, 2013, for a total of 12 days. During this time, repairs will be performed, including driving piles for 2 sheave platforms, 2 winch platforms, a walkway and a hydraulic unit housing platform. The repairs are necessary to ensure the safety of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists of commercial and recreational fishing vessels, small to medium crew boats, and small tugs with and without tows. No alternate routes are available for the passage of vessels; however, the closure was coordinated with waterway interests who have indicated that they will be able to adjust their operations around the proposed work schedule. The bridge will be able to open manually in the event of an emergency, but it will take about one hour to do so.

In accordance with 33 CFR 117.5, the draw bridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.5

SUPPLEMENTARY INFORMATION: The Louisiana Department of Transportation and Development requested a temporary deviation from the normal operation of the U.S. Highway 90 drawbridge in order to remove, repair, and replace machinery required to operate the drawbridge. This maintenance is essential for the continued safe operation of the drawbridge. This temporary deviation allows the drawbridge to remain closed from 7 a.m. on Tuesday, December 3, 2013 through 7 a.m. on Saturday, December 21, 2013. During the repair period, the bridge will be able to open for the passage of vessels twice daily, at 8 a.m. and 4 p.m., beginning on Thursday, December 5,

2013 through Wednesday, December 18, 2013.

In accordance with 33 CFR 117.436, the draw of the U.S. Highway 90 Bridge, mile 2.8, shall open on signal; except that, from 5:30 a.m. to 7:30 a.m. Monday through Friday, except Federal holidays, the draw need open only for the passage of vessels. The draw shall open at any time for a vessel in distress.

This deviation is effective from 7 a.m. on Tuesday, December 3, 2013 through 7 a.m. on Saturday December 21, 2013. This closure allows for the maintenance and repairs to be done safely and efficiently. Navigation on the waterway consists mainly of commercial fishermen and sportsman fishermen. As a result of coordination between the Coast Guard and the waterway users, it has been determined that this closure will not have a significant effect on these vessels.

Vessels able to pass through the bridge in the closed positions may do so at anytime. The bridge will not be able to open for emergencies. Rigolets Pass can be used as an alternate route for vessels unable to pass through the bridge in closed positions. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: November 18, 2013.
