CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

Sunshine Act Meeting

TIME AND DATE: June 5, 2014, 4 p.m.–7 p.m. c.d.t.

PLACE: Hilton Americas, 1600 Lamar Street, Houston, TX 77010.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

The Chemical Safety and Hazard Investigation Board (CSB) will convene a public meeting on June 5, 2014, starting at 4:00 p.m. CDT, at the Hilton Americas Hotel, Grand Ballroom, Houston, Texas 77010.

At the public meeting, the Board will consider and vote on the executive summary and first two volumes of the

CSB's report into the April 20, 2010 blowout of the Macondo well in the Gulf of Mexico. The Macondo incident had a catastrophic impact. Eleven workers died, 17 others were seriously injured, and millions of barrels of oil spilled into the Gulf of Mexico, making it one of the largest environmental disasters in U.S. history. The CSB, at the request of the Chairman of the House Committee on Energy and Commerce, launched an independent investigation with a broad mandate to examine not only the technical factors surrounding the incident, but also certain organizational issues and opportunities for improvement to regulatory standards and industry best practices offshore.

Following a presentation by CSB investigators, the Board will hear public comments related to the report. The staff presentations are preliminary and are intended solely to allow the Board to publicly consider the findings and potential recommendations for this case. No factual analyses, conclusions, or findings presented by staff should be considered final. The Board may vote to adopt the final investigation report and recommendations after hearing staff presentations and public comments.

Public Comment

Members of the public are invited to make brief statements to the Board at the conclusion of the staff presentations. The time provided for public statements will depend upon the number of people who wish to speak. Speakers should assume that their presentations will be limited to five minutes or less, but commenters may submit written statements for the record.

Additional Information

The meeting is free and open to the public. If you require a translator or interpreter, please notify the individual listed below as the "Contact Person for Further Information," at least five business days prior to the meeting.

The CSB is an independent federal agency charged with investigating accidents and hazards that result, or may result, in the catastrophic release of extremely hazardous substances. The agency's Board Members are appointed by the President and confirmed by the Senate. CSB investigations look into all aspects of chemical accidents and hazards, including physical causes such as equipment failure as well as inadequacies in regulations, industry standards, and safety management systems. General information about the CSB can be found on the agency Web site at: www.csb.gov.

BILLING CODE 6335-01-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Foreign Fishing Vessel Permits, Vessel, and Gear Identification, and Reporting Requirements.

OMB Control Number: 0648-0075.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 7.

Average Hours per Response: Activity reports and weekly reports, 6 minutes; logbooks and internal waters operations, 30 minutes each; directed fishing applications and joint venture applications, 2 hours each; transshipment applications, 45 minutes; vessel marking, 45 minutes; gear marking, 1 hour.

Burden Hours: 82.

Needs and Uses: This request is for extension of a current information collection. The National Marine Fisheries Service (NMFS) issues permits, under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*; MSA), to foreign fishing vessels fishing or operating in U.S. waters. MSA and associated regulations at 50 CFR Part 600 requires applications for the permits, vessels and certain gear be marked for identification purposes, and for permit holders to report their fishing effort and catch or, when processing fish, amount and locations of fish received from U.S. vessels. These requirements apply to all foreign vessels fishing, transshipping, or processing fish in U.S. waters. Information is collected from persons who operate a foreign fishing vessel in U.S. waters to participate in a directed fishery or joint venture operation, transship fish harvested by a U.S. vessel to a location outside the U.S., or process fish in internal waters. Each person may be required to submit information for a

permit, mark their vessels and gear, or submit information about their fishing activities. To facilitate observer coverage, foreign fishing vessel operators must provide a quarterly schedule of fishing effort and upon request must also provide observers with copies of any required records. For foreign fishing vessels that process fish in internal waters, the information collected varies somewhat from other foreign fishing vessels that participate in a directed fishery or a joint venture operation. In particular these vessels may not be required to provide a permit application or mark their vessels. The information submitted in applications is used to determine whether permits should be used to authorize directed foreign fishing, participation in joint ventures with U.S. vessels, or transshipments of fish or fish products within U.S. waters. The display of identifying numbers on vessels and gear aids in fishery law enforcement and allows other fishermen to report suspicious activity. Reporting of fishing activities allows monitoring of fish received by foreign vessels.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or faxed to (202) 395-5806.

Dated: May 21, 2014.

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: U.S.-Canada Albacore Treaty Reporting System.

OMB Control Number: 0648-0492.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 100.

Average Hours per Response: 5 minutes.

Burden Hours: 158.

Needs and Uses: This request is for extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS), West Coast Region, manages the United States (U.S.)—Canada Albacore Tuna Treaty of 1981 (Treaty). Owners of vessels that fish from U.S. West Coast ports for albacore tuna will be required to notify the National Marine Fisheries Service (NMFS) West Coast Region of their desire to be on the list of vessels provided to Canada each year indicating vessels eligible to fish for albacore tuna in waters under the jurisdiction of Canada. Additionally, vessel operators are required to report in advance their intention to fish in Canadian waters prior to crossing the maritime border as well as to mark their fishing vessels to facilitate enforcement of the effort limits under the Treaty. Vessel operators are also required to maintain and submit a logbook of all catch and fishing effort. The regulations implementing the reporting and vessel marking requirements under the Treaty are at 50 CFR part 300.172–300.176.

The estimated burden below includes hours to complete the logbook requirement, although it is assumed that most if not all of the respondents already complete the required logbook under the mandatory West Coast Highly Migratory Species Fishery Management Plan (HMS FMP), OMB Control No. 0648-0223. Duplicate reporting under the Treaty and HMS FMP is not required. Most years, there will be much less fishing (and thus less reporting) under the Treaty than the level on which the estimate is based.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.
