

DEPARTMENT OF THE INTERIOR**Bureau of Land Management**

[WO-300-1330-EO]

Notice of a 30-Day Public Comment Period To Affirm the Policy for the Standards To Establish the Potash Enclave As Used To Administer the Secretarial Order of 1986 Entitled "Oil and Gas and Potash Leasing and Development Within the Designated Potash Area of Eddy and Lea Counties, New Mexico"**AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice of correction.

SUMMARY: The Bureau of Land Management (BLM) originally published this notice on Tuesday, August 30, 2005 [70 FR 51364] and solicited public comments on the report which affirms the existing policy on the criteria used to establish the potash enclave. The BLM gave the public 30 days to comment on these Policy Standards. The public comment period ended on Thursday, September 29, 2005. The BLM received numerous requests to lengthen the comment period. The BLM extended the comment period an additional 120 days. The BLM has again received requests to lengthen the comment period. The BLM will again extend the comment period an additional 120 days.

DATES: Comments should be submitted to the address below no later than June 12, 2006.

ADDRESSES: Written comments should be addressed to Group Manager, Solid Minerals, 1620 L Street NW., Mail Stop 501 LS, Washington DC 20036.

FOR FURTHER INFORMATION CONTACT: Ted Murphy, Group Manager, Solid Minerals, 1620 L St. NW., Mail Stop 501 LS, Washington, DC 20036, telephone (202) 452-0351.

Thomas Lonnie,

Assistant Director, Minerals, Realty and Resource Protection.

BILLING CODE 4310-AG-P

ACTION: Notice of extension of an information collection (1010-0137).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), MMS is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements in a Notice to Lessees and Operators (NTL) discussed below.

DATES: Submit written comments by April 11, 2006.

ADDRESSES: You may submit comments by any of the following methods listed below. Please use the Information Collection Number 1010-0137 as an identifier in your message.

- Public Connect on-line commenting system, <https://occonnect.mms.gov>. Follow the instructions on the Web site for submitting comments.

- E-mail MMS at rules.comments@mms.gov. Identify with Information Collection Number 1010-0137 in the subject line.

- Fax: 703-787-1093. Identify with Information Collection Number 1010-0137.

- Mail or hand-carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Process Team (RPT); 381 Elden Street, MS-4024; Herndon, Virginia 20170-4817. Please reference "Information Collection 1010-0137" in your comments.

FOR FURTHER INFORMATION CONTACT:

Cheryl Blundon, Rules Processing Team at (703) 787-1600. You may also contact Cheryl Blundon to obtain a copy, at no cost, of the subject collection of information.

SUPPLEMENTARY INFORMATION:

Title: Historical Well Data Cleanup Project; Wells Without Assigned MMS API Numbers—Notice to Lessees.

OMB Control Number: 1010-0137.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable

return on the resources of the OCS; and to preserve and maintain free enterprise competition.

The OCSLA at 43 U.S.C. 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well-trained personnel using technology, precautions, and techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstruction to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health."

The MMS's Historical Well Data Cleanup Project is currently underway and is expected to last several years to allow operators ample time to provide the missing or corrected data. This notice announces our intention to request a 3-year extension for this information collection.

The information we collect under this NTL, is missing data for wellbores that MMS has not assigned API numbers and other well data discovered as missing while completing the well database cleanup project. We are not able to manage and utilize data from drilling operations accurately without the information for the missing wells. We will use the information to identify other well data (e.g., logs, surveys, tests) missing from our records, geologically map existing MMS data to the correct wellbore/location, and correctly exchange information with the operators and industry. Our geoscientists can use the information to evaluate resources for lease sales for fair market value. With respect to safety concerns, we believe that there may be anywhere from 3,000 to 5,000 unidentified completed and abandoned wellbores (bypasses and sidetracks), some of which may contain stuck drill pipe or other materials. In approving permits and other operations in an area, it is important for us to know what may be adjacent to or near the vicinity of the activity we are approving to minimize the risk of blowouts, loss of well control, and endangerment to life, health, and the environment. This is particularly important as, over the years, the number of wells drilled constantly increases, thereby increasing the risk to adjacent activities if operators are not aware of what might be in the area.

We will protect information respondents submit that is considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and 30 CFR 250.196, "Data and information to be made available to the public." No items of a sensitive nature are collected. Responses are mandatory.

DEPARTMENT OF THE INTERIOR**Minerals Management Service****Agency Information Collection Activities: Proposed Collection; Comment Request**

AGENCY: Minerals Management Service (MMS), Interior.

Frequency: On occasion.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS oil, gas, and sulphur lessees.

Estimated Reporting and Recordkeeping "Hour" Burden: The currently approved annual reporting burden for this collection is 56,250 hours for approximately 25,000 wells, based on:

(1) ¼ hour to locate and copy a summary of drilling operations (e.g., scout tickets) for each well.

(2) 2 hours to retrieve and analyze each well file and retrieve other missing data. There are no recordkeeping requirements.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: We have identified no cost burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the "non-hour cost" burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include,

among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: MMS's practice is to make comments, including names and addresses of respondents, available for public review. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor this request to the extent allowable by law; however, anonymous comments will not be considered. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

MMS Information Collection Clearance Officer: Arlene Bajusz (202) 208-7744.

Dated: January 26, 2006.

E.P. Danenberger,
Chief, Office of Offshore Regulatory Programs.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Request for Comments on the Draft Proposed 5-Year Outer Continental Shelf (OCS) Oil and Gas Leasing Program for 2007-2012 and Notice of Intent To Prepare an Environmental Impact Statement (EIS) for the Proposed 5-Year Program

SUMMARY: The Minerals Management Service (MMS) requests comments on the Draft Proposed 5-year OCS Oil and Gas Leasing Program for 2007-2012. This is the first proposal for a new program to succeed the current program that expires on June 30, 2007, and forms the basis for conducting the studies and analyses the Secretary will consider in making future decisions on what areas to include in the program.

Section 18 of the OCS Lands Act (43 U.S.C. 1344) specifies a multi-step process of consultation and analysis that must be completed before the Secretary of the Interior may approve a new 5-year program. The required steps following this notice include the development of a proposed program, a proposed final program, and Secretarial approval. Pursuant to the National Environmental Policy Act (NEPA), the MMS also will prepare an EIS for the new 5-year program.

DATES: Please submit comments and information to the MMS no later than April 11, 2006.

Public Comment Procedure

The MMS will accept comments in one of two formats: by mail or our Internet commenting system. Please submit your comments using only one of these formats, and include full names and addresses. Comments submitted by other means may not be considered. We will not consider anonymous comments, and we will make available for inspection in their entirety all comments submitted by organizations and businesses or by individuals identifying themselves as representatives of organizations and businesses.

Our practice is to make comments, including the names and home addresses of respondents, available for public review. An individual commenter may ask that we withhold his or her name, home address, or both from the public record, and we will honor such a request to the extent allowable by law. If you submit comments and wish us to withhold such information, you must so state prominently at the beginning of your submission.

ADDRESSES: Mail comments and information to: Renee Orr, 5-Year Program Manager, Minerals Management Service (MS-4010), Room 3120, 381 Elden Street, Herndon, Virginia 20170. Please label your comments and the packaging in which they are submitted according to the subject matter. Mark those pertaining to program preparation, "Comments on Draft Proposed 5-Year Program for 2007-2012," and mark those pertaining to EIS preparation, "Scoping Comments on the EIS for the 5-Year Program for 2007-2012." If you submit any privileged or proprietary information to be treated as confidential, please mark the envelope, "Contains Confidential Information."

Internet: The MMS will accept comments submitted to our electronic commenting system. This system can be
