Title: 7 CFR 1728, Electric Standards and Specifications for Materials and Construction.

OMB Control Number: 0572-0131.

Type of Request: Extension of a currently approved collection.

Abstract: Rural Development makes loans and loan guarantees in accordance with the Rural Electrification Act of 1936, 7 U.S.C. 901 *et seq.*, (RE Act). Section 4 of the RE Act requires that the Agency make or guarantee a loan only if there is reasonable assurance that the loan, together with all outstanding loans

and obligations of the borrower, will be repaid in full within the time agreed. In order to facilitate the programmatic interests of the RE Act, and, in order to assure that loans made or guaranteed by the Agency are adequately secure, Rural Development, as a secured lender, has established certain standards and specifications for materials, equipment, and the construction of electric systems. The use of standards and specifications for materials, equipment and construction units helps assure the Agency that: (1) Appropriate standards and specifications are maintained; (2) Rural Development loan security is not adversely affected; and (3) loan and loan guarantee funds are used effectively and for the intended purposes. 7 CFR 1728 establishes Agency policy that materials and equipment purchased by Agency electric borrowers or accepted as contractor-furnished material must conform to Agency standards and specifications where they have been established and, if included in Rural Development IP 202-1, "List of Materials Acceptable for Use on Systems of Agency Electrification Borrowers" (List of Materials), must be selected from that list or must have received technical acceptance from Rural Development.
