

Notices

Federal Register

Vol. 87, No. 139

Thursday, July 21, 2022

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding: whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques and other forms of information technology.

Comments regarding this information collection received by August 22, 2022 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Forest Service

Title: Secure Rural Schools Act.

OMB Control Number: 0596–0220.

Summary of Collection: The USDA Forest Service (FS) is requesting the extension of OMB approval to collect information from counties receiving funds under Title III of Secure Rural Schools (SRS) and Community Self-Determination Act (Act). The information will certify and describe the amounts expended and the uses of the funds during the applicable year. The FS is also requesting to collect information from the counties that will certify the amount of Title III funds received since October 2008 that has not been obligated as of September 30 of the previous year. The Department of the Interior (DOI), Bureau of Land Management (BLM), will coordinate on this information collection from counties in which the BLM administers Federal lands covered by the Act.

Section 303(a) of the Secure Rural Schools and Community Self-Determination Act of 2000 (the Act), reauthorized in Public Law 115–141, Public Law 110–343, Public Law 112–141, Public Law 113–40, and Public Law 114–10 requires the appropriate official of a county that receives funds under Title III of the Act to submit to the Secretary concerned (the Secretary of Agriculture or the Secretary of the Interior, as appropriate) an annual certification that the funds expended have been used for the uses authorized under section 302(a) of the Act.

Need and Use of the Information: The information collected will identify the participating county and the year in which the expenditures were made and will include amounts not obligated by September 30 of the previous year. Information includes the name, title, and signature of the official certifying that the expenditures were for uses authorized under section 302(a) of the Act, and the date of the certification. Information will also be collected including the amount of funds expended in the applicable year and the uses for which the amount were expended referencing the authorized categories; (1) carry out activities under the Firewise Communities program; (2) reimburse the participating county for emergency services performed on Federal land and paid for by the

participating county; and (3) to develop community wildfire protection plans in coordination with the appropriate Secretary or designee. The information will be used to verify that participating counties have certified that funds were expended as authorized in the Act.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 360.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 8,640.

BILLING CODE 3411–15–P

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Agency Information Collection Activities: Summer Food Site Locations for State Agencies

AGENCY: Food and Nutrition Service (FNS), USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on this proposed information collection. This is a revision of a currently approved collection for the voluntary collection of summer meal site information from State agencies.

DATES: Written comments must be received on or before September 19, 2022.

ADDRESSES: Comments may be sent to: Alice McKenney, Community Meals Branch, Food and Nutrition Service, U.S. Department of Agriculture, 1320 Braddock Place, Alexandria, VA 22314. Comments may also be submitted via email to SM.FN.CNDinternet@usda.gov. Comments will also be accepted through the Federal eRulemaking Portal. Go to <http://www.regulations.gov>, and follow the online instructions for submitting comments electronically. All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will be a matter of public record.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of this information collection should be directed to Alice McKenney at 703–605–4150.

SUPPLEMENTARY INFORMATION:

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions that were used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title: Summer Food Site Locations for State Agencies.

Form Number: FNS–905.

OMB Number: 0584–0649.

Expiration Date: 10/31/2022.

Type of Request: Revision of a currently approved collection.

Abstract: The Form FNS–905: Summer Food Site Locations for State Agencies is the instrument used to voluntarily collect information from State agencies about approved summer meal sites for the Summer Food Service Program (SFSP) and the Seamless Summer Option (SSO) of the National School Lunch Program. The form collects site name, location, and operating details, such as dates and times of the day that the sites are in operation, that provide summer meals to children 18 years and younger in low income communities during summer operations. The Form FNS–905 may only be completed by State agencies.

The Form FNS–905 is part of requirements found in statute in Section 26 of the National School Lunch Act (NSLA) (42 U.S.C. 1769g), which mandates that FNS enter into a contract with a nongovernmental organization to develop and maintain a national information clearinghouse for grassroots organizations working on hunger, food, nutrition, and other agricultural issues, including food recovery, food assistance and self-help activities to aid individuals to become self-reliant, and other activities that empower low-income individuals. The Form FNS–905 is specific to summer meal site data and populates the National Hunger Clearinghouse database with summer meals site information and locations. The USDA National Hunger Clearinghouse is a resource for the public to find information about the food safety net. Information collection activities associated with the USDA National Hunger Clearinghouse and its associated FNS–543 form, National Hunger Clearinghouse Database Form, are covered under OMB Control number 0584–0474, which is approved through April 30, 2025. This notice is only soliciting comments on the collection of summer meals site information from State agencies via the Form FNS–905 that is approved under this collection.

FNS also provides information about approved meal sites for individuals to find meals for children when school is out, and for groups that assist these low income individuals or communities to find meals for children in the summer. The information provides an innovative way to connect families to meals during summer operations, and assists communities in the development, coordination, and evaluation of strategic initiatives, partnership, and outreach activities.

A proposed change in the frequency of responses since the last submission is expected to increase the burden hours for this collection from 53 to 73 hours

annually. In addition, FNS is removing \$1,713 in capital, start-up, operational, and maintenance costs during this revision. While preparing this notice, FNS determined that the \$1,713 costs were hourly respondent costs rather than capital, start-up, operational, or maintenance costs. While capital, start-up, operational, and maintenance costs are reported as part of the burden inventory for the collection, the hourly respondent costs are not reported in this manner. Therefore, FNS is removing these costs during this revision.

Affected Public: State, Local and Tribal Government: Respondent groups identified include State agencies administering the SFSP.

Estimated Number of Respondents: The total estimated number of respondents is 53. This includes: the 50 States, the District of Columbia, Virgin Islands and Puerto Rico State agencies which administer the SFSP.

Estimated Number of Responses per Respondent: Form FNS–905 is voluntary and State agencies are asked to complete the form at least once annually. However, State agencies may submit weekly updates during summer operations. Prior to the previous OMB approval, the average submission per State agency was 8. Since then, the average submission per State agencies has slightly increased. Data has shown that State agencies voluntarily submit an average of 11 revisions in the course of a year. Therefore, FNS is proposing to increase the number of responses per respondent from 8 responses to 11 responses in this request.

Estimated Total Annual Responses: 583.

Estimated Time per Response: The estimated time of response is approximately 7.5 minutes (0.125 hours) for each response.

Estimated Total Annual Burden on Respondents: 73 hours. See the table below for estimated total annual burden for the State agencies.

Respondent	Estimated number respondent	Responses annually per respondent	Total annual responses (col. bxc)	Estimated average number of hours per response	Estimated total hours (col. dxe)
Reporting Burden: State agencies	53	11	583	0.125	72.875
Total Reporting Burden	53	583	72.875

Cynthia Long,

Administrator, Food and Nutrition Service.

BILLING CODE 3410–30–P

DEPARTMENT OF AGRICULTURE

Forest Service

Superior National Forest; Minnesota; Rainy River Withdrawal Environmental Assessment

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice to extend comment period.

SUMMARY: The Forest Service, U.S. Department of Agriculture, has prepared an environmental assessment to support its application for a 20-year withdrawal of the Rainy River watershed from disposition of Federally owned minerals under United States mineral and geothermal leasing laws. The intent of the requested withdrawal is to protect and preserve natural and cultural resources in the Rainy River watershed, including the Boundary Waters Canoe Area Wilderness (BWCW), Mining Protection Area (MPA), and the 1854 Ceded Territory, from the known and potential adverse environmental impacts arising from exploration and development of Federally owned minerals. This notice is to inform the public that the Forest Service is extending the opportunity to comment on the environmental assessment by 15 days.

DATES: Comments concerning the environmental assessment must be received by Friday, August 12, 2022.

ADDRESSES: The environmental assessment and supporting documents are available on the project web page at <http://go.usa.gov/xtaCw>. Electronic comments are preferred through the project website at <https://go.usa.gov/xuH43>. Comments may also be sent electronically to comments-eastern-superior@usda.gov. Written comments may be sent to Forest Headquarters, 8901 Grand Avenue Place, Duluth, MN 55808.

FOR FURTHER INFORMATION CONTACT: Matt Judd, Minerals Project Manager, at matthew.judd@usda.gov or 218–626–4300.

Individuals who use telecommunication devices for the deaf and hard of hearing (TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339, 24 hours a day, every day of the year, including holidays.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The purpose of the requested withdrawal is to protect and preserve natural and cultural resources in the Rainy River watershed, including the BWCW, MPA, and the 1854 Ceded Territory, from the known and potential adverse environmental impacts arising from exploration and development of Federally owned minerals. The withdrawal is needed because the Forest Service and the Bureau of Land Management (BLM) have seen and can reasonably anticipate increasing interest within the private sector for developing the copper-nickel ore minerals in the Duluth Complex that may adversely impact the Rainy River watershed.

Proposed Action

The Secretary of the Interior would issue a public land order, and approximately 225,504 acres of National Forest System lands in the Rainy River watershed would be withdrawn from disposition under the United States mineral and geothermal leasing laws for a 20-year term, subject to valid existing rights. The withdrawal would restrict the BLM from processing or issuing new hardrock prospecting permits and mineral leases on National Forest System lands in the withdrawal boundary. However, the withdrawal would not prohibit ongoing or future exploration or mining extraction operations on valid existing rights, as determined by the BLM.

The withdrawal would not prohibit activities on non-federal (surface and mineral) ownerships. State, county, and private mineral interests could continue to exercise their ownership rights. However, if fee simple title of these lands and minerals were acquired by the United States during the withdrawal period, through means such as purchase or exchange to be managed by the Forest Service, such acquisitions would be subject to the withdrawal. Partial federal mineral interests, where the Federal government owns less than 100 percent of the mineral estate, would also not be affected by the withdrawal. No other management changes would be made affecting access to private inholdings, federal mineral material operations (sand, gravel, and dimension stone), or management of other forest resources such as timber, wildlife, and recreation.

Lead and Cooperating Agencies

The Forest Service is the lead agency for preparing the environmental assessment. The BLM is a cooperating agency for the NEPA analysis (40 CFR 1508.1(e)). The BLM will independently evaluate and review the analysis and

any other documents needed for the Secretary of the Interior to make a decision on the requested withdrawal.

Responsible Official

The Secretary of the Interior is the decision-maker for the requested withdrawal.

How To Comment

Comments may be submitted in electronic (preferred) or hard-copy form to the website or addresses provided in the **ADDRESSES** section of this notice. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental assessment. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

The proposed withdrawal is not subject to Forest Service objection procedures at 36 CFR 218 because the decision to be made is by the Secretary of the Interior.

Dated: July 18, 2022.

Deborah Hollen,

Acting Associate Deputy Chief, National Forest System.
