

Environmental Impacts: Policies and Procedures, paragraph 5–6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points). As such, this action is not expected to result in any potentially significant environmental impacts. In accordance with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. Accordingly,

the FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

[Docket No. FAA–2024–0269; Airspace Docket No. 24–ASW–2]

RIN 2120–AA66

Amendment of Class D and Class E Airspace; Beaumont/Port Arthur, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class D and Class E airspace at Beaumont/Port Arthur, TX. This action is the result of airspace reviews conducted due to the decommissioning of the Beaumont very high frequency omnidirectional range (VOR) as part of the VOR Minimum Operational Network (MON) Program. This action also updates the name and geographic coordinates of various airports. This action brings the airspace into compliance with FAA orders and supports instrument flight rule (IFR) operations.

DATES: Effective 0901 UTC, July 11, 2024. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

### Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the Class D airspace, Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface at Jack Brooks Regional Airport, Beaumont/Port Arthur, TX, and the Class E airspace extending upward from 700 feet above the surface at Beaumont Municipal Airport, Beaumont, TX, and Orange County Airport, Orange, TX. (Contained within the Beaumont/Port Arthur, TX, airspace legal description.) to support instrument flight rule operations at these airports.

### History

The FAA published an NPRM for Docket No. FAA-2024-0269 in the **Federal Register** (89 FR 14000; February 26, 2024) proposing to amend the Class D and Class E airspace at Beaumont/Port Arthur, TX. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

### Incorporation by Reference

Class D and E airspace designations are published in paragraphs 5000, 6002, and 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11H, dated August 11, 2023, and effective September 15, 2023. FAA Order JO 7400.11H is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11H lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### The Rule

This amendment to 14 CFR part 71: Modifies the Class D airspace at Jack Brooks Regional Airport, Beaumont/Port Arthur, TX, by updating the name of the

airport (previously Jefferson County Airport) to coincide with the FAA's aeronautical database; updates the header of the airspace legal description to Beaumont/Port Arthur, TX (previously Beaumont, TX) to coincide with the FAA's aeronautical database; removes the city associated with the airport in the airspace legal description to comply with changes to FAA Order JO 7400.2P, Procedures for Handling Airspace Matters; and replaces the outdated terms "Notice to Airmen" and "Airport/Facility Directory" with "Notice to Air Missions" and "Chart Supplement";

Modifies the Class E surface airspace at Jack Brooks Regional Airport by updating the name of the airport (previously Jefferson County Airport) to coincide with the FAA's aeronautical database; updates the header of the airspace legal description to Beaumont/Port Arthur, TX (previously Beaumont, TX) to coincide with the FAA's aeronautical database; removes the city associated with the airport in the airspace legal description to comply with changes to FAA Order JO 7400.2P; and replaces the outdated terms "Notice to Airmen" and "Airport/Facility Directory" with "Notice to Air Missions" and "Chart Supplement";

And modifies the Class E airspace extending upward from 700 feet above the surface to within a 7.5-mile (decreased from a 7.7-mile) radius of Jack Brooks Regional Airport; removes the extension northwest of Beaumont Municipal Airport, Beaumont, TX, from the airspace legal description as it is no longer needed; within a 6.5-mile (decreased from a 6.6-mile) radius of Orange County Airport, Orange, TX; updates the name of Jack Brooks Regional Airport (previously Southeast Texas Regional Airport) to coincide with the FAA's aeronautical database; updates the geographic coordinates of Beaumont Municipal Airport and Orange County Airport to coincide with the FAA's aeronautical database; updates the header of the airspace legal description to Beaumont/Port Arthur, TX (previously Beaumont, TX) to coincide with the FAA's aeronautical database; and removes the cities associated with the airports in the airspace legal description to comply with changes to FAA Order JO 7400.2P.

### Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under

Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
