

introducing HPAI and Newcastle disease into the United States via imports of species or products susceptible to these diseases. Our determination supports adding Romania to the Web-based list of regions in which Newcastle disease is not considered to exist and removing Romania from the Web-based list of regions in which HPAI is considered to exist.

APHIS also concludes that Romania meets the requirements to form part of the EU Poultry Trade Region (EUPTR), an APHIS-recognized region of the EU that meets APHIS requirements for being considered free of HPAI and Newcastle disease, and for which the importation of live birds and poultry and poultry meat and products is harmonized.

Therefore, in accordance with § 92.2(e), we are announcing the availability of our risk evaluation of the HPAI and Newcastle disease status of Romania for public review and comment.

In April 2012, APHIS prepared an environmental assessment (EA) analyzing the potential effects on the human environment from listing the 25 Member States that constituted the EU in 2006 as a region free of HPAI and Newcastle disease (collectively referred to as EUPTR). The EA has been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provision of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

The evaluation and EA may be viewed on the *Regulations.gov* website or in our reading room. (Instructions for accessing *Regulations.gov* and information on the location and hours of the reading room are provided under the heading **ADDRESSES** at the beginning of this notice.) The documents are also available by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

Information submitted in support of Romania's request is available by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

After reviewing any comments we receive, we will announce our decision regarding the disease status of Romania with respect to HPAI and Newcastle disease in a subsequent notice.
