

Site (Site) from the National Priorities List (NPL).

SUMMARY: The EPA proposes to delete the Ilada Energy Company Superfund site (Site) from the NPL and requests public comment on this action. The NPL constitutes appendix B to 40 CFR part 300 of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended. EPA has determined that the Site currently poses no significant threat to public health or the environment, as defined by CERCLA, and therefore, further remedial measures under CERCLA are not appropriate. We are publishing this proposed rule without prior notification because the Agency views this as a noncontroversial revision and anticipates no dissenting comments. A detailed rationale for this proposal is set forth in the direct final rule, published elsewhere in this issue of the **Federal Register**. If no dissenting comments are received, the deletion will become effective. If EPA receives dissenting comments, the direct final action will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting should do so at this time.

DATES: Comments concerning this Action must be received by December 11, 2000.

ADDRESSES: Comments may be mailed to Gladys Beard, Associate Remedial Project Manager, U.S. Environmental Protection Agency (SR-6J), 77 W. Jackson, Chicago, IL 60604. Comment Sought on Recommended Decision Issued by Federal-State Joint Board on Jurisdictional Separations

AGENCY: Federal Communications Commission.

ACTION: Proposed rules; solicitation of comments.

SUMMARY: This document seeks comment on the Federal-State Joint Board on Jurisdictional Separations' Recommended Decision for instituting an interim freeze of the relationships and jurisdictional allocation factors.

DATES: Submit comments on or before November 24, 2000, and reply comments on or before December 4, 2000.

ADDRESSES: See Supplementary Information section for where and how to file comments.

FOR FURTHER INFORMATION CONTACT: William Cox, (202) 418-7400; TTY: (202) 418-0484.

SUPPLEMENTARY INFORMATION: The full text of this document is available for public inspection and copying during regular business hours at the FCC Reference Information Center, Portals II, 445 12th Street, SW., Room CY-A257, Washington, DC, 20554. This document may also be purchased from the Commission's copy contractor, International Transcription Service, Inc. (ITS), 1231 20th Street, NW., Washington, DC 20036, telephone 202-857-3800, facsimile 202-857-3805.

On July 21, 2000, the Federal-State Joint Board on Jurisdictional Separations (Joint Board) released a *Recommended Decision* for instituting an interim freeze of the part 36 category relationships and jurisdictional allocation factors. On August 15, 2000, we released a public notice, similar to

this *Public Notice*, that sought comment on the *Recommended Decision*. The *Aug. 15 Public Notice* inadvertently was not published in the **Federal Register**. In order to provide adequate notice to interested parties, we now release this *Public Notice* seeking comment on the *Recommended Decision*. Parties who have already filed comments in response to the *Aug. 15 Public Notice* need not refile their comments.

The Joint Board recommended that the Commission institute a five-year freeze of all part 36 category relationships and allocation factors for price cap carriers, and a freeze of the allocation factors for rate-of-return carriers. The Joint Board recommended that the Commission adopt a freeze based on carriers' data from the twelve months prior to the Commission's issuance of an order on the *Recommended Decision*. The Joint Board further recommended that the freeze should be mandatory and apply to all carriers subject to the Commission's part 36 rules. The Joint Board recommended that the freeze remain in effect for five years, or until the Commission takes further action pursuant to a recommendation from the Joint Board, whichever occurs first. During the interim freeze period, the Joint Board recommended that the Joint Board and the Commission continue to review issues regarding separations reform, as specified in the *Recommended Decision*. We seek comment on the Joint Board's recommendations.

The Joint Board also recommended that the Commission further develop the record in this proceeding on the impact of increased intrastate usage on jurisdictional allocations and consumers since 1995. Accordingly, we seek comment on the impact of increased intrastate usage since 1995 on jurisdictional allocations and consumers. The Joint Board noted that one possible explanation for the increase in intrastate usage is the growth in the use of the local network to connect to the Internet since 1995. As a result, we seek comment on the impact of Internet traffic growth on jurisdictional allocations since 1995. We request that companies provide specific information on Internet usage minutes, including the percentage of local minutes and total minutes that represent Internet traffic. This usage information should include data from Internet service providers both affiliated and non-affiliated with incumbent local exchange carriers. If estimates are used in determining these statistics, we request that commenters provide detailed explanation and justification

for these estimates and their underlying assumptions, including all studies and related work papers.

The Joint Board recommended that, if the Commission finds that Internet traffic is jurisdictionally interstate in the proceeding that has been initiated as a result of the remand by the United States Court of Appeals for the DC Circuit on the Commission's *Reciprocal Compensation Ruling*, 64 FR 14203, March 24, 1999, the Commission freeze the local dial equipment minutes (DEM) factor for the duration of the freeze at some substantial portion of the current year level based on data from the twelve months preceding the implementation of the freeze. The Joint Board recommended that, based on the record established in connection with the *Recommended Decision*, the precise percentage of the current year's local DEM should be established according to how much of a reduction in local DEM is warranted in light of any effects that Internet usage has had on jurisdictional allocations or consumers. We seek comment on this recommendation.

Procedures for Filing Comments
