SUPPLEMENTARY INFORMATION:

I. Background

In accordance with § 51.118 of Title 10 of the *Code of Federal Regulations*, the NRC is issuing the final Supplement 53 to the GEIS regarding the renewal of TVA operating licenses DPR–77 and DPR–79 for an additional 20 years of operation for SQN. Draft Supplement 53 to the GEIS was noticed by the NRC in the **Federal Register** on August 11, 2014 (79 FR 46878), and noticed by the Environmental Protection Agency on August 15, 2014 (79 FR 48140). The public comment period on draft Supplement 53 to the GEIS ended on September 29, 2014, and the comments received are addressed in final Supplement 53 to the GEIS.

II. Discussion

As discussed in Chapter 5 of the final Supplement 53 to the GEIS, the NRC determined that the adverse environmental impacts of license renewal for SQN are not so great that preserving the option of license renewal for energy-planning decisionmakers would be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by TVA; (3) consultation with Federal, State, local, and Tribal agencies; (4) the NRC staff’s independent environmental review; and (5) consideration of public comments received during the scoping process and on the draft supplemental environmental impact statement.

Dated at Rockville, Maryland, this 19th day of March, 2015.

For the Nuclear Regulatory Commission.

Brian D. Wittick,

Chief, Projects Branch 2, Division of License Renewal, Office of Nuclear Reactor Regulation.

PACIFIC NORTHWEST ELECTRIC POWER AND CONSERVATION PLANNING COUNCIL

Amended Columbia River Basin Fish and Wildlife Program; Corrected Notice

AGENCY: Pacific Northwest Electric Power and Conservation Planning Council (Northwest Power and Conservation Council, Council), an interstate compact agency organized under the authority of the Pacific Northwest Electric Power Planning and Conservation Act of 1980, 16 U.S.C. 839 *et seq.* (Northwest Power Act).

ACTION: Notice of final action adopting the amended *Columbia River Basin Fish and Wildlife Program*.

SUMMARY: Pursuant to Section 4(h) of the Northwest Power Act, the Council has amended its *Columbia River Basin Fish and Wildlife Program* (program). The final amended program may be found on the Council’s Web site at <http://www.nwccouncil.org/fw/program/2014-12>. In the Council’s earlier notice of the amended program (Doc #2015–06299, published 3/19/2015) the URL link was incorrectly stated as <http://www.nwccouncil.org/fw/2014F&WProgram/>.

Background: Pursuant to Section 4(h) of the Northwest Power Act, in March 2013 the Northwest Power and Conservation Council requested in writing that state and federal fish and wildlife agencies, Indian tribes, and others submit recommendations for amendments to the Council’s *Columbia River Basin Fish and Wildlife Program*. The Council received over 1,500 pages of recommendations and supporting information from 68 entities and 412 individuals. The Council subsequently received extensive written public comment on the program amendment recommendations.

In May 2014, after reviewing the recommendations, the supporting information, the comments received on the recommendations, and other information in the administrative record, the Council released for public review a draft revised program. The Council received over 1,500 pages of substantial written comments on the draft amendments. The Council also took oral testimony at ten public

hearings around the region and at regularly scheduled Council meetings. Transcripts of these hearings are in the administrative record along with the written comments. As specified in Section 4(h)(5), the Council also held a number of consultations on the recommendations and draft amendments with representatives of state and federal fish and wildlife agencies, Indian tribes, federal hydrosystem agencies, and customers of the Bonneville Power Administration. Notes from these consultations are also in the administrative record. Relevant documents from the program amendment process, including the recommendations, draft program amendments and comments, may be found on the Council's Web site at <http://www.nwcouncil.org/fw/program/2014-03>.

Following this public review process required by the Northwest Power Act, and after deliberations in public over the course of several Council meetings, the Council adopted the final revised program in October 2014 at a regularly scheduled Council meeting in Pendleton, Oregon. The Council based its decisions on the recommendations, supporting documents, and views and information obtained through public comment and participation and consultation with the agencies, tribes, and customers. In the final step of this program amendment process, at its regularly scheduled March 2015 meeting in Eugene, Oregon, the Council adopted written findings as part of the program explaining its disposition of program amendment recommendations along with responses to comments received on the program amendment recommendations and on the draft amended program. The findings and responses have been made part of the program as Appendix S.
