

the Commission's official service list in Docket Nos. CP00-129-000, et al.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP02-74-000]

Reef International, L.L.C.; Notice of Application

February 4, 2002.

Take notice that on January 22, 2002, Reef International, L.L.C., (Reef), 1330 Leopard St., Suite 26, Corpus Christi, Texas 78410, filed an application seeking Section 3 authorization pursuant to the Natural Gas Act (NGA) and a Presidential Permit pursuant to Executive Order No. 10485, as amended by Executive Order No. 12038, to site, construct, operate and maintain facilities at the International Boundary for the exportation of initially 5,000 MMBtu per day of natural gas, and thereafter will average approximately 15,000 MMBtu per day from Eagle Pass, Maverick County, Texas to Coahuila, Mexico, all as more fully set forth in the application on file with the Commission and open to public inspection. This

filing may be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket #" and follow the instructions (call (202)208-2222 for assistance).

Reef proposes to construct approximately 5 miles of 12-inch pipeline and appurtenant facilities from an interconnection with the existing intrastate pipeline facilities of Southern Transmission Company in Maverick County, Texas, crossing under the Rio Grande River (the mid-point of which is the International Boundary between the United States and Mexico), to a point just across the river in Coahuila, Mexico. In order to cross the Rio Grande River, Reef proposes to directionally bore under it for a total bore length of approximately 800 feet. The new pipeline will then terminate approximately 1000 feet from the International Boundary in Coahuila, Mexico, at a point of interconnection with the distribution system of Compania Nacional de Gas, S.A. (Conagas). According to Reef, Conagas will construct the metering and regulating facilities, known as the Phenix Station, in Mexico necessary for it to receive the gas from Reef's new pipeline. Reef states that the purpose of the new pipeline is to provide the Piedras Negras region of Coahuila, Mexico, with additional, needed supplies of clean burning natural gas, which will be derived exclusively from production sources within the State of Texas.

Reef seeks both an NGA Section 3 order and a Presidential Permit for the approximately 400 feet of 12-inch pipeline that will begin at the point of commencement of the directional bore on the United States side of the river and extend to the mid-point of the river. The remaining facilities that will lie within the United States will be subject to the jurisdiction of the State of Texas. Reef asserts that since none of the transported supplies will be derived from sources outside of state, the U.S. portion of the pipeline facilities are exempt from Section 7.

Any questions regarding the application should be directed to Michael Ward, Reef International, L.L.C., 1330 Leopard St., Suite 26, Corpus Christi, Texas, 78410, at (361) 241-2244.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before February 25, 2002, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to

intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities.

For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Interventions, comments, and protests may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Magalie R. Salas,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP02-156 -000]

Vector Pipeline L.P.; Notice of Annual Fuel Use Report

February 5, 2002.

Take notice that on January 31, 2002, Vector Pipeline L.P. tendered for filing an annual report of its monthly fuel use ratios for the period December 1, 2000 through December 31, 2001.

Vector states that this filing is made pursuant to Section 11.4 of the General Terms and Conditions of the Vector Gas Tariff and Section 154.502 of the Commission's regulations.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before February 12, 2002. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies

of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket" and follow the instructions (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site under the "e-Filing" link.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EC02-46-000, et al.]

Harbor Cogeneration Company, et al.; Electric Rate and Corporate Regulation Filings

February 1, 2002.

Take notice that the following filings have been made with the Commission. Any comments should be submitted in accordance with Standard Paragraph E at the end of this notice.

1. Harbor Cogeneration Company; South Coast Energy Company; Black Hills Long Beach, Inc.

[Docket No. EC02-46-000]

Take notice that on January 29, 2002, Harbor Cogeneration Company (Harbor Cogeneration), South Coast Energy Company (South Coast Energy) and Black Hills Long Beach, Inc. (BH Long Beach) tendered for filing a joint application for authorization for South Coast Energy to transfer its Partnership Interests in Harbor Cogeneration to BH Long Beach.

Comment Date: 02-07-02 February 19, 2002.

2. Southern California Edison Company and California Independent System Operator Corporation

[Docket No. EC02-45-000]

Take notice, that on January 28, 2002, Southern California Edison Company (SCE) and the California Independent System Operator Corporation (ISO) tendered for filing in accordance with part 33 of the Federal Energy Regulatory Commission's Regulations (18 CFR part 33) a joint application pursuant to section 203 of the Federal Power Act for authority to transfer operational control of certain facilities from SCE to the ISO.

The transmission facilities primarily consist of capacitors, capacitor banks and circuit breakers that have been added to the transmission system. The subject transfers will have no effect on SCE's or the ISO's other jurisdictional facilities or services and are compatible with the public interest.

SCE is seeking privileged treatment of certain single line diagrams, required by the Commission's regulations to be attached as an Exhibit to the Application, that depict the jurisdictional facilities at issue.

SCE and the ISO request that the Commission accept this Application for filing, to become effective 45 days after the date of filing. A copy of this filing was served upon the Public Utilities Commission of the State of California and the ISO.

Comment Date: 02-07-02 February 19, 2002.

3. Arizona Public Service Company

[Docket No. ER02-494-000]

Take notice that on January 29, 2002, Arizona Public Service Company (APS) tendered for filing a request to withdraw the filing of a service agreement under the Western Systems Power Pool with the Bonneville Power Administration in the above docket.

A copy of this filing has been served on the Bonneville Power Administration and the Arizona Corporation Commission.

Comment Date: 02-07-02 February 19, 2002.

4. Xcel Energy Services Inc.

[Docket No. ER02-873-000]

Take notice that on January 30, 2002, Northern States Power Company and Northern States Power Company (Wisconsin) (jointly NSP), wholly-owned utility operating company subsidiaries of Xcel Energy Inc., tendered for filing a Firm Point-to-Point Transmission Service Agreement between NSP and Madison Gas and Electric. NSP proposes the Agreement be included in the Xcel Energy Operating Companies FERC Joint Open Access Transmission Tariff, First Revised Volume No. 1, as Service Agreement 203-NSP, pursuant to Order No. 614.

NSP requests that the Commission accept the agreement effective January 1, 2002, and requests waiver of the Commission's notice requirements in order for the agreement to be accepted for filing on the date requested.

Comment Date: 02-07-02 February 19, 2002.
