FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center Web site at <http://www.ffiec.gov/nic/>.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 16, 2006.

Proposed Project

Evaluation of the Effectiveness of the Smoke Alarm Installation and Fire Safety Education (SAIFE) Program—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Each year approximately 400,000 residential fires occur in the United States. Smoke alarms have been shown to reduce fire-related injury and fatality. This project will use data from in-person interviews, paper and pencil (PAPI) and telephone surveys to determine the degree to which the Smoke Alarm Installation and Fire Safety Education (SAIFE) program improves knowledge, attitudes, and practices about fire and burn safety and its efficacy in delivering fire safety information. The data will be collected from a convenience sample of adults 18 years of age or older who volunteer to participate in the SAIFE program. Program participants will be asked to complete a 15-minute survey twice while taking part in the SAIFE program, once immediately before the intervention and 6 months after equipment installation. Approximately 10% of the respondents surveyed will be randomly selected for an extensive 1 hour face to face interview 6 months following the installation period. The evaluation will measure changes across time, between groups, and within groups among communities involved in the program. CDC currently funds 16 states to provide installation of smoke alarms plus general fire safety education
