Appendix I—Scope of the Investigation

The merchandise covered by this investigation, polyester textured yarn, is synthetic multifilament yarn that is manufactured from polyester (polyethylene terephthalate). Polyester textured yarn is produced through a texturing process, which imparts special properties to the filaments of the yarn, including stretch, bulk, strength, moisture absorption, insulation, and the appearance of a natural fiber. This scope includes all forms of polyester textured yarn, regardless of surface texture or appearance, yarn density and thickness (as measured in denier), number of filaments, number of plies, finish (luster), cross section, color, dye method, texturing method, or packaging method (such as spindles, tubes, or beams).

The merchandise subject to this investigation is properly classified under subheadings 5402.33.3000 and 5402.33.6000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Final Determination of No Shipments

We have continued to find that, during the POR, there were no entries of subject merchandise into the United States from, or exports or sales of subject merchandise to the United States by, the following companies: (1) BYD (Shangluo) Industrial Co., Ltd.; (2) Changzhou Trina Solar Energy Co., Ltd., Trina Solar (Changzhou) Science and Technology Co., Ltd., Yancheng Trina Solar Energy Technology Co., Ltd., Changzhou Trina Solar Yabang Energy Co., Ltd., Turpan Trina Solar Energy Co., Ltd., Hubei Trina Solar Energy Co., Ltd., Trina (Hefei) Science and Technology Co., Ltd.; and (3) Shanghai BYD Co., Ltd.

Changes Since the Preliminary Results

Since issuing the *Preliminary Results*, we corrected certain ministerial errors in our calculation of Jinko's weighted-average dumping margin, (*i.e.*, programming language regarding the calculation of normal value and domestic brokerage and handling expenses). Based on comments regarding the draft liquidation instructions to U.S. Customs and Border Protection (CBP) that we circulated to the parties, have updated the

instructions regarding any shipments by Trina.

Separate Rates

No parties commented on our preliminary separate rate findings. Therefore, we have continued to grant Jinko⁷ and Risen,⁸ (the mandatory respondents) and the nine other companies/company groups listed in the "Final Results of Review" section below separate rate status. However, we have continued to deny separate rate status to the 25 companies listed in Appendix II of the *Preliminary Results*.

Dumping Margin for Non-Individually Examined Respondents Granted Separate Rate Status

The statute and Commerce's regulations do not address the rate to apply to respondents not selected for individual examination in a non-market economy (NME) administrative review who are eligible for a separate rate. When considering which rate to apply to such respondents, Commerce generally looks to section 735(c)(5) of the Tariff Act of 1930, as amended (the Act), which provides instructions for calculating the all-others rate in an antidumping duty investigation. Section 735(c)(5)(A) of the Act instructs Commerce to base the all-others rate on the estimated weighted-average dumping margins established for the exporters and producers individually investigated, excluding any dumping margins that are zero, *de minimis*, or based entirely on facts available. However, section 735(c)(5)(B) of the Act provides that, where all of the estimated dumping margins for the exporters and producers individually investigated are

either zero, *de minimis*, or are determined entirely under section 776 of the Act, Commerce may use any reasonable method to establish the rate for exporters and producers not individually examined.⁹

The SAA provides that when the dumping margins for all individually examined respondents are zero, *de minimis*, or determined entirely on the basis of facts available, the "expected method" of determining the all-others rate is to weight average the zero and *de minimis* dumping margins with the dumping margins based on facts available, provided that volume data are available.¹⁰ This practice has been upheld by both the United States Court of International Trade and United States Court of Appeals for the Federal Circuit (CAFC).¹¹ In *Albemarle* and *Changzhou Hawd 2017*, the CAFC held that under the "expected method" the rates determined for the "mandatory respondents are assumed to be representative" of the experience of the non-selected companies.¹²

We calculated weighted-average dumping margins of zero percent for both mandatory respondents. Accordingly, pursuant to section 735(c)(5)(B) of the Act and the CAFC's decisions in *Albemarle* and *Changzhou Hawd 2017*, we assigned a dumping margin of zero percent to the separate rate recipients not selected for examination.

Commerce's policy regarding the conditional review of the China-wide entity applies to this administrative review.¹³ Under this policy, Commerce will not review the China-wide entity in an administrative review unless a party specifically requests, or Commerce self-initiates, a review of the entity. Because no party requested a review of the China-wide entity, and Commerce did not self-initiate a review of the entity, the China-wide entity is not under review, and the dumping margin assigned to the China-wide entity (*i.e.*, 238.95 percent) has not changed.¹⁴

Disclosure

Pursuant to 19 CFR 351.224(b), within five days of the publication of this notice in the **Federal Register**, we will disclose to the parties to this proceeding, the calculations that we performed for these final results of review.

Assessment

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), Commerce will determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise covered by the final results of this review. Because the respondents' weighted average dumping margins are zero percent, we will instruct CBP to liquidate appropriate entries without regard to antidumping duties.¹⁵

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication date of the final results of this review in the **Federal Register**. If a timely summons is filed at the CIT, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Where merchandise was entered into the United States under the case number of a mandatory respondent in this review during the POR (*i.e.*, entered under the mandatory respondent's cash deposit rate), but the mandatory respondent did not report a corresponding sale or entry in its U.S. sales database, we will instruct CBP to liquidate such entries at the China-wide rate. In addition, for the companies for which we determined that there were no entries, exports, or sales of subject merchandise during the POR, any suspended entries of subject merchandise entered under one of the companies' case numbers during the POR will be liquidated at the China-wide rate.¹⁶

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review in the **Federal Register**. Pursuant to section 751(a)(2)(C) of the Act, for shipments of subject merchandise from China entered, or withdrawn from warehouse,

For reasons described in Comment 8 of the IDM, we intend to liquidate certain entries by Trina during the POR at the cash deposit rate under which they were entered.

for consumption on or after the date of publication of this notice in the **Federal Register**, the following cash deposits will be required: (1) For the companies/company groups listed in the table in the "Final Results of Review" section above, the cash deposit rate will be the rate listed for each company/company group in the table; (2) for previously investigated Chinese and non-Chinese exporters that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the rate previously established for the China-wide entity (*i.e.*, 238.95 percent); and (4) for all non-China exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied the non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information

disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5).

Certain Activated Carbon From the People's Republic of China: Notice of Final Results of Antidumping Duty Changed Circumstances Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On September 7, 2021, the Department of Commerce (Commerce) published the initiation and preliminary results of a changed circumstances review (CCR) of the antidumping duty (AD) order on certain activated carbon (activated carbon) from the People's Republic of China (China). For these final results, Commerce continues to find that Jacobi Carbons AB (Jacobi AB) and its affiliates, Tianjin Jacobi International Trading Co. Ltd. (Tianjin Jacobi) and Jacobi Carbons Industry (Tianjin) Co. Ltd. (JCC) (collectively, Jacobi), should be collapsed with its new wholly-owned Chinese affiliate, Jacobi Adsorbent Materials (JAM), and the single entity, inclusive of JAM, should be assigned the same AD cash deposit rate assigned to Jacobi for purposes of determining AD liability in this proceeding.

DATES: Applicable October 25, 2021.

FOR FURTHER INFORMATION CONTACT: Jinny Ahn, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–0339.

SUPPLEMENTARY INFORMATION:

Background

On September 7, 2021, Commerce published the *Initiation and Preliminary Results*,¹ finding that Jacobi should be collapsed with JAM, and the Jacobi single entity, inclusive of JAM, should be assigned the same AD cash deposit rate assigned to Jacobi for purposes of determining AD liability in this proceeding.² In the *Initiation and Preliminary Results*, we provided all interested parties with an opportunity to comment and request a public hearing regarding our preliminary finding.³ We

¹ See *Certain Activated Carbon from the People's Republic of China: Notice of Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review*, 86 FR 50050 (September 7, 2021) (*Initiation and Preliminary Results*), and accompanying Preliminary Decision Memorandum.

received no comments or requests for a public hearing from interested parties.

Scope of the Order⁴

The merchandise covered by the scope of the *Order* is activated carbon. For a complete description of the scope of the *Order*, see the Preliminary Decision Memorandum.

Final Results of Changed Circumstances Review

For the reasons stated in the *Initiation and Preliminary Results*, and because we received no comments from interested parties to the contrary, Commerce continues to find that Jacobi should be collapsed with JAM, and that the Jacobi single entity, inclusive of JAM, should be assigned the same AD cash deposit rate assigned to Jacobi for purposes of determining AD liability in this proceeding.⁵ As a result of this determination and consistent with established practice, we find that JAM should receive the cash deposit rate previously assigned to Jacobi in the most recently completed review of the *Order*. The cash deposit rate assigned to Jacobi in the most recently completed review was \$0.65 per kilogram.⁶ Consequently, Commerce will instruct U.S. Customs and Border Protection to suspend liquidation of all shipments of subject merchandise exported by JAM and entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice in the **Federal Register** at \$0.65 per kilogram, which is the current AD cash deposit rate for Jacobi. This cash deposit requirement shall remain in effect until further notice.

Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.
