Coast Guard

33 CFR Part 117

[Docket No. USCG-2011-0252]

Drawbridge Operation Regulation; Company Canal, Lockport, LA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the LA 1 vertical lift span bridge across Company Canal, mile 0.4, at Lockport, Lafourche Parish, Louisiana. The deviation is necessary to perform electrical rehabilitation work on the bridge. This deviation allows the bridge to remain closed to navigation for twelve consecutive hours each day from Monday through Thursday for three weeks.

DATES: This deviation is effective from 6 a.m. on Monday, June 27, 2011 through 6 p.m. on Thursday, July 14, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG-2011-0252 and are available online by going to <http://www.regulations.gov>, inserting USCG-2011-0252 in the "Keyword" box and then clicking "Search". They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or

e-mail David Frank, Bridge Administration Branch, Coast Guard; telephone 504-671-2128, e-mail David.M.Frank@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: The Louisiana Department of Transportation and Development has requested a temporary deviation from the operating schedule of the vertical lift span bridge across Company Canal at mile 0.4 in Lockport, Lafourche Parish, Louisiana. The vertical clearance of the bridge is 5 feet above Mean High Water in the closed-to-navigation position and 50 feet above Mean High Water in the open-to-navigation position.

In accordance with 33 CFR 117.438(a), the vertical lift span of the bridge currently opens on signal except that, from 6 p.m. to 10 a.m. the draw opens on signal if at least 4 hours notice is given. This deviation allows the vertical lift span of the bridge to remain closed to navigation from 6 a.m. until 6 p.m. Monday through Thursday from Monday, June 27, 2011 through Thursday July 14, 2011.

The closure is necessary in order to replace electrical conductors and conduit throughout the bridge structure, including the removal and replacement of all navigation lights on the span and fender system. This maintenance is essential for the continued operation of the bridge. Temporary navigational lighting will be provided during the closure and power outage period. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists of commercial and recreational fishing vessels, small to medium crew boats, and small tugs with and without tows. The bridge opens for the passage of navigation an average of 16 times per month. There are two alternate waterway routes available via the Gulf Intracoastal Waterway east to Bayou Lafourche and west to Navigation Canal. Small vessels may pass under the bridge while in the closed-to-navigation position provided caution is exercised.

Due to prior experience and coordination with waterway users, it has been determined that this closure will not have a significant effect on vessels that use the waterway.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: April 5, 2011.

David M. Frank,

Bridge Administrator.

RIN 1625-AA00

Safety Zone; M/V DAVY CROCKETT, Columbia River

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The U.S. Coast Guard is extending and expanding the emergency safety zone established on the waters of the Columbia River surrounding the M/V DAVY CROCKETT at approximately river mile 117 on January 28, 2011. The safety zone is necessary to help ensure the safety of the response workers and maritime public from the hazards associated with deleterious state of and ongoing response operations involving the M/V DAVY CROCKETT. All persons and vessels are prohibited from entering or remaining in the safety zone unless authorized by the Captain of the Port, Columbia River or his designated representative.

DATES: This rule is effective from April 15, 2011 through May 17, 2011. This rule is effective with actual notice for purposes of enforcement on March 28, 2011. This rule will remain in effect through May 17, 2011.
