SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that, if the Commission finds a violation, it shall exclude the articles concerned from the United States:

The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation, specifically: A limited exclusion order directed to certain chemical mechanical planarization ("CMP") slurries and components thereof, including colloidal silica imported, sold for importation, and/or sold after importation by respondents DuPont de Nemours, Inc. of Wilmington, Delaware; Rohm and Haas Electronic Materials CMP, LLC of Newark, Delaware; Rohm and Haas Electronic Materials CMP Asia Inc. II. Discussion

HDI has the authority to conduct licensed activities under Provisional License No. DPR-5, Renewed Facility License No. DPR-26, and Renewed Facility License No. DPR-64 for the IPEC, and the general license for the IPEC independent spent fuel storage installation (ISFSI). These licenses provide, among other things, that the respective facilities are subject to all rules, regulations, and orders of the NRC now or hereafter in effect. The facilities consist of three pressurized-water reactors located in Buchanan, New York, in Westchester County, all of which are permanently shutdown, and the ISFSI.

On December 19, 2019, HDI submitted to the NRC the PSDAR for the IPEC, contingent upon the transfer of the IPEC licenses to HDI (ADAMS Accession No. ML19354A698). Paragraph 50.82(a)(4)(i) of title 10 of the *Code of Federal Regulations* (10 CFR) states that a PSDAR must contain a description of the planned decommissioning activities along with a schedule for their accomplishment, a discussion that provides the reasons for concluding that the environmental impacts associated with site-specific decommissioning activities will be bounded by appropriate previously issued environmental impact statements, and a site-specific DCE, including the projected cost of managing irradiated fuel. The IPEC license transfer transaction closed on May 28, 2021. Accordingly, pursuant to 10 CFR 50.82(a)(4)(ii), the NRC noticed receipt of the PSDAR, including the DCE, for IPEC and made it available for public comment on June 24, 2021 (86 FR 33383).
