[Docket No. M-2002-036-C]

New Century Mining, Inc., P.O. Box 1781, Alabaster, Alabama 35007-1781 has filed a petition to modify the application of 30 CFR 77.214(a) (Refuse piles; general) to its Pineywoods Preparation Plant (I.D. No. 01-02976) located in Shelby County, Alabama. The petitioner requests a modification of the existing standard to permit construction of a coarse refuse disposal area, Coarse Refuse Disposal Area No. 5, within the face-up area of the abandoned Kodiak Mine No. 1. The petitioner proposes to cover the existing sealed entries with additional impervious, non-combustible earthen material which would contain enough fines to ensure an airtight seal and place the material in lifts not to exceed 12 inches. The petitioner has listed in this petition specific procedures that would be used when implementing its proposed alternative method. The petitioner asserts that application of the existing standard would result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

10. Rivers Edge Mining, Inc.

No. 46-08890) located in Boone County, West Virginia. The petitioner proposes to use a threaded ring and a spring-loaded device instead of a padlock on all battery plug connectors on mobile battery-powered machines used in by the last open crosscut to prevent the plug connector from accidentally disengaging while under load. Warning tags stating "Do Not Disengage Plugs Under Load" will be placed on all battery plug connectors on the battery-powered machines. The petitioner states that training in the safe practices and provision for compliance with its proposed alternative method would be provided to all persons who are required to operate or maintain the battery-powered machines. The petitioner asserts that application of the existing standard would result in a diminution of safety to the miners and that the proposed alternative method would provide at least the same measure of protection as the existing standard.

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Review; Comment Request for Reinstatement of an Information Collection: OF-311

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget a request for reinstatement of an information collection, the voluntary Application for Federal Employee Commercial Garnishment (OF-311). The application may be completed by the creditors of Federal employees. The application facilitates the processing of a wide variety of commercial garnishment orders issued by various State and local jurisdictions. The application provides information about commercial garnishment orders and facilitates the processing of commercial garnishments by Federal agencies in a uniform manner that otherwise would not be possible.

OPM did not receive any comments as a result of the 60-Day Notice.

OPM anticipates that approximately 100 Forms OF-311 will be completed annually for OPM employees and that each form takes approximately 10 minutes to complete. The annual estimated burden is 17 hours or less. OPM anticipates, however, that many other Federal agencies will suggest that creditors complete the Form OF-311.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, E-mail to mbtoomey@opm.gov, or by FAX at 202-418-3251. Please include a mailing address with your request.

DATES: Comments on this proposal should be received on or before May 20, 2002.

ADDRESSES: Send or deliver comments to:

James S. Green, Associate General Counsel, Office of General Counsel, U.S. Office of Personnel Management, 1900 E Street, NW., Room 7553, Washington, DC 20415
