

collection completed by applicants for, or incumbents of, Federal Government civilian positions, or positions in private entities performing work for the Federal Government under contract. The collection is used as the basis of information for background investigations to establish that such persons are:

- Suitable for employment or retention in Federal employment in a low risk, non-sensitive position, or fit for employment or retention in Federal employment in the excepted service when the duties to be performed are equivalent to a low risk, non-sensitive position;
- Fit to perform work on behalf of the Federal Government pursuant to the Government contract, when the duties to be performed are equivalent to a low risk, non-sensitive position;
- Eligible for physical and logical access to federally controlled facilities or information systems, when the duties to be performed by the individual are equivalent to the duties performed by an employee in a low risk, non-sensitive position.

For applicants, the SF 85 is to be used only after a conditional offer of employment has been made. e-QIP (Electronic Questionnaires for Investigations Processing) is a web-based system application that houses the SF 85. A variable in assessing burden hours is the nature of the electronic application. The electronic application includes branching questions and instructions which provide for a tailored collection from the respondent based on varying factors in the respondent's personal history. The burden on the respondent is reduced when the respondent's personal history is not relevant to particular question, since the question branches, or expands for additional details, only for those persons who have pertinent information to provide regarding that line of questioning. Accordingly, the burden on the respondent will vary depending on whether the information collection relates to the respondent's personal history.

OPM recommends renewal of the form without any proposed changes, except to underlying authorities, which have been revised in the period since the last renewal; the Privacy Act Information Statement, to acknowledge the transfer of background investigations files from OPM to the Defense Counterintelligence and Security Agency; and the Purpose Statement, to make more clear that the form may be used for investigations for fitness for appointment to a position in the excepted service. No other changes

are recommended at this time. Ongoing assessments will occur to ensure the SF 85 reflects and collects pertinent information for the investigative process and aligns with governing policies, rules, and regulations requiring use of this form.
