POSTAL SERVICE

39 CFR Part 111

Balloting Materials Postage

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service will revise *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 703.8.0 to require that all ballot types include in the balloting materials a marking to indicate that the proper amount of postage must be paid and the balloting materials must also indicate the specific amount of postage for the return of ballots, unless mailed under certain specified exceptions.

DATES: *Effective date:* October 7, 2013.

FOR FURTHER INFORMATION CONTACT:

Steven Monteith at (202) 268–6983, or Garry Rodriguez at 202–268–7281.

SUPPLEMENTARY INFORMATION: On May 2, 2013, the Postal Service published a proposed rule (78 FR 25677–25678) inviting comments on revisions to the standards for balloting materials. In response to this proposed rule, the Postal Service received several comments that are summarized and discussed below.

After considering the comments received, the Postal Service will revise the DMM to require that the balloting materials for all types of ballots, whether disseminated hardcopy or electronically, must indicate in a prominent location the proper amount of First-Class Mail® postage that must be paid. This information must be included in the balloting materials (i.e., on the ballot, ballot instructions, mailing instructions, or the envelope) with the marking “First-Class Mail postage must be applied.” Alternatively, the marking “Apply First-Class Mail postage here” could be printed in the upper right corner of the address side of the envelope used by the voter to return the ballot to election officials. The Postal Service will also accept approved variations of the above markings.

Additionally, this final rule requires that the balloting materials indicate in a prominent location the specific amount of First-Class Mail postage required for the return of the ballot to election officials.

The marking requirements will not apply to balloting materials that meet one of the following exceptions:

- The balloting materials are qualified under the special exemption for military and overseas voting.
- The ballot is returned under Business Reply Mail® service.

- Return postage is guaranteed through a postage due account.

- Postage on the ballot is prepaid by stamps, meter, or Permit Reply Mail.

Comments and Discussion

The Postal Service received fourteen formal responses to the proposed rule. Thirteen responses were received from State election officials and one comment was received from a consumer. Several responses included comments about more than one issue. Comments and responses are as follows.

One commenter pointed out that in the preamble the word “sufficient” was included in the markings to indicate that the proper amount of postage must be paid, but was omitted in the proposed text of DMM 703.8.1.2. We regret any confusion, and note that the word “sufficient” will not be required in the markings required by the final rule.

Some commenters indicated that they are already including different variations of the proposed markings. The Postal Service appreciates this proactive approach and will make the necessary changes to also allow the use of approved versions.

One commenter questioned the requirement to indicate the specific amount of postage required, based on the current use of Forever™ stamps. The value of a Forever stamp is widely publicized as the current First-Class Mail single-piece 1-ounce price. When a Forever stamp is used on a piece requiring postage greater than the First-Class Mail single-piece 1-ounce price, additional postage must be affixed.

Other commenters voiced practical concerns about the requirement to indicate the specific amount of postage for the return of the ballot. These concerns included the need to order election envelopes in bulk, management of excess inventory, and the effect of annual price changes. In response to these concerns, the definition of “balloting materials” has been broadened to include “mailing instructions.” This will provide election officials an alternative to printing the markings on the ballot, voting instructions, or return envelope.

Some commenters expressed concerns regarding the ability of election officials to determine the specific postage required to return the ballot. The amount of postage communicated to voters should be based only on what is required to be returned. Local postal personnel are available to work with election officials to determine the amount of postage which should be applied.
