**Vaisala, Inc., A Wholly Owned
Subsidiary of Vaisala OYJ, Columbus
Operations, Plain City, OH; Notice of
Revised Determination on
Reconsideration**

By application of May 2, 2003, a worker requested administrative reconsideration regarding the Department's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to the workers of the subject firm.

The initial investigation resulted in a negative determination issued on April 18, 2003 based on the finding that imports of automated weather observation systems (AWOS) did not contribute importantly to worker separations at the subject plant. The denial notice was published in the **Federal Register** on May 7, 2003 (68 FR 24503).

To support the request for reconsideration, the worker supplied additional information to supplement that which was gathered during the initial investigation. Upon further review and contact with the company, it was revealed that, subsequent to the closure of the plant, the company shifted production to one of their foreign facilities and began importing components of the AWOS system that were like or directly competitive with components produced at the subject facility in the relevant period. It was also determined that the production of these components at the subject facility comprised a significant portion of overall production.

Conclusion

After careful review of the facts obtained in the investigation, I determine that there was a shift in production from the workers' firm or subdivision to a foreign source of articles that are like or directly competitive with those produced by the

subject firm or subdivision, and there has been or is likely to be an increase in imports of like or directly competitive articles. In accordance with the provisions of the Act, I make the following certification:

All workers of Vaisala, Inc., A Wholly Owned Subsidiary of Vaisala OYJ, Columbus Operations, Plain City, Ohio, who became totally or partially separated from employment on or after March 27, 2002 through two years from the date of this certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC this 3rd day of June 2003.

**Washington Group IDC, Manassas, VA;
Notice of Affirmative Determination
Regarding Application for
Reconsideration**

By letter of June 2, 2003, a petitioner requested administrative reconsideration of the Department of Labor's Notice of Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to workers of the subject firm. The denial notice was signed on May 9, 2003, and published in the **Federal Register** on June 3, 2003 (68 FR 33197).

The investigation revealed that the petitioning workers of this firm or subdivision do not produce an article within the meaning of section 222(3) of the Act.

The petitioners supplied additional information alleging that they produce a product at an unaffiliated facility whose workers are certified eligible to apply for trade adjustment assistance (Micron Technology, Manassas, Virginia, TA-W-51,231). The Department will conduct further investigation to address this issue.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 9th day of June, 2003.

Adjustment Assistance.*
