Notice of Intent To Prepare an Environmental Impact Statement for the Schuylkill River Valley National Heritage, Management Plan Update

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of Intent to prepare an Environmental Impact Statement for the

Schuylkill River Valley National Heritage Management Plan Update.

SUMMARY: Under the provisions of the National Environmental Policy Act of 1969, the National Park Service is preparing an environmental impact statement (EIS) for the Management Plan Update for the Schuylkill River Valley National Heritage Area. The Schuylkill River Valley National Heritage Act of 2000 requires the Schuylkill River Greenway Association, with guidance from the National Park Service, to prepare an update of their 1995 Schuylkill Heritage Corridor Management Action Plan. The Management Plan Update is expected to include: (A) Actions to be undertaken by units of government and private organizations to protect the resources of the Heritage Area; (B) an inventory of the resources contained in the Heritage Area, including a list of any property in the Heritage Area that is related to the themes of the Heritage Area and that should be preserved, restored, managed, developed, or maintained because of its natural, cultural, historical, recreational, or scenic significance; (C) a recommendation of policies for resource management that considers and details application of appropriate land and water management techniques, including the development of intergovernmental cooperative agreements to protect the historical, cultural, recreational, and natural resources of the Heritage Area in a manner consistent with supporting appropriate and compatible economic viability; (D) a program for implementation of the management plan by the management entity; (E) an analysis of ways in which local, State, and Federal programs may best be coordinated to promote the purposes of this title; and (F) an interpretation plan for the Heritage Area.

The study area, designated as the Schuylkill River Valley National Heritage, includes parts of the counties of: Schuylkill, Berks, Chester, Montgomery and Philadelphia in southeastern Pennsylvania as associated with the Schuylkill River corridor.

The National Park Service (NPS) maintains two park sites within the region: Valley Forge National Historical Park and the Hopewell Furnace National Historic Site. Otherwise the majority of land is non-federal and the NPS assumes a management role only within their park units. Instead, conservation, interpretation and other activities are managed by partnerships among federal, state, and local governments and private nonprofit organizations. The Schuylkill River

Greenway Association manages the national heritage area. The National Park Service has been authorized by Congress to provide technical and financial assistance for a limited period (up to 10 years from the time of the designation in 2000).

The EIS will address a range of alternatives—they include a no-action alternative and other action alternatives. The impacts of the alternatives will be assessed through the EIS process.

A scoping meeting will be scheduled and notice will be made of the meeting through a broad public mailing and publication in the local newspapers.

General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

SUPPLEMENTARY INFORMATION:

Reopening Record

In October 2001, the Commission made negligibility determinations in antidumping investigations regarding wire rod imports from Egypt, South Africa and Venezuela, and terminated those investigations pursuant to statute. The Commission's determinations were appealed to the U.S. Court of International Trade (CIT). On June 20, 2002, the CIT issued an opinion requiring the Commission to reconsider its terminations given the modified scope of investigations issued by the Department of Commerce ("Commerce") on April 10, 2002 (67 FR 17,384). The Commission was given until August 2, 2002, or 43 days, in which to comply with the Court's remand order and issue remand determinations.

In order to assist it in making its determinations on remand, the Commission is reopening the record on remand in these investigations to include in the record the modified scope issued by Commerce in April, 2002, and to obtain import data corresponding to that modified scope of investigations regarding subject wire rod imports from all sources. The record in
