

concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before August 28, 2023. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1285.

Title: Compliance with the Non-IP Call Authentication Solution Rules; Robocall Mitigation Database (RMD).

Form Number: N/A.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 12,800 respondents; 12,800 responses.

Estimated Time per Response: 0.5-6 hours.

Frequency of Response: Recordkeeping requirement and on occasion reporting requirement.

Obligation to Respond: Mandatory and required to obtain or retain benefits. Statutory authority for these collections are contained in sections 227b, 251(e), and 227(e) of the Communications Act of 1934.

Total Annual Burden: 39,663 hours.

Total Annual Cost: No cost.

Needs and Uses: The Pallone-Thune Telephone Robocall Abuse Criminal Enforcement and Deterrence (TRACED) Act directs the Commission to require, no later than 18 months from enactment, all voice service providers to implement STIR/SHAKEN caller ID authentication technology in the internet protocol (IP) portions of their networks and implement an effective caller ID authentication framework in the non-IP portions of their networks. Among other provisions, the TRACED Act also directs the Commission to create extension mechanisms for voice service providers. On September 29,

2020, the Commission adopted its *Call Authentication Trust Anchor Second Report and Order*. See *Call Authentication Trust Anchor*, WC Docket No. 17-97, Second Report and Order, 36 FCC Rcd 1859 (adopted Sept. 29, 2020). The *Second Report and Order* implemented section 4(b)(1)(B) of the TRACED Act, in part, by requiring a voice service provider maintain and be ready to provide the Commission upon request with documented proof that it is participating, either on its own or through a representative, including third party representatives, as a member of a working group, industry standards group, or consortium that is working to develop a non-internet Protocol caller identification authentication solution, or actively testing such a solution. The *Second Report and Order* also implemented the extension mechanisms in section 4(b)(5) by, in part, requiring voice service providers to certify in the Robocall Mitigation Database that they have either implemented STIR/SHAKEN or a adopted a robocall mitigation program and describe that program in a filed plan. On May 19, 2022, the Commission adopted similar obligations for gateway providers. See *Advanced Methods to Target and Eliminate Unlawful Robocalls, Call Authentication Trust Anchor*, CG Docket No. 17-59, WC Docket No. 17-97, Sixth Report and Order *et al.*, FCC 22-27 (adopted May 19, 2022). Specifically, like voice service providers, gateway providers were required to maintain and be ready to provide the Commission upon request with documented proof that it is participating, either on its own or through a representative, including third party representatives, as a member of a working group, industry standards group, or consortium that is working to develop a non-internet Protocol caller identification authentication solution, or actively testing such a solution.

Gateway providers were also required to implement both STIR/SHAKEN on the IP portions of their networks as well as a robocall mitigation program. They must also certify to their implementation and describe their robocall mitigation program in the Robocall Mitigation Database. On March 16, 2023, the Commission adopted an Order imposing largely the same obligations that applied to gateway providers on a new class of providers: non-gateway intermediate providers. See *Call Authentication Trust Anchor*, Sixth Report and Order and Further Notice of Proposed Rulemaking, WC Docket No. 17-97, FCC 23-18 (adopted March 16, 2023). In that action, the

Commission also required all voice service providers to adopt a robocall mitigation program and file a description of that program in the Robocall Mitigation Database as well as requiring all classes of providers to file additional information in the Robocall Mitigation Database. On May 18, 2023, the Commission adopted an Order modifying some of these requirements. See *Call Authentication Trust Anchor, et al.*, WC Docket No. 17-97 *et al.*, Seventh Report and Order *et al.*, FCC 23-37 (adopted May 18, 2023).

Federal Communications Commission.

Marlene Dortch,

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0917; OMB 3060-1270; FR ID 150641]

Information Collections Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.” The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before July 31, 2023.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under

30-day Review—Open for Public Comments” or by using the search function. Your comment must be submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Nicole Ongele, FCC, via email to PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the **SUPPLEMENTARY INFORMATION** below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418–2991. To view a copy of this information collection request (ICR) submitted to OMB: (1) go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select “Federal Communications Commission” from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060–0917.
Title: CORES Registration Form, FCC Form 160.

Form Number: FCC Form 160.
Type of Review: Extension of a currently approved collection.
Respondents: Businesses or other for-profit entities; individuals or households; not-for-profit institutions; and State, local, or Tribal governments.
Number of Respondents and Responses: 145,726 respondents; 145,726 responses.

Estimated Time per Response: 10 minutes (0.167 hours).

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in the Debt Collection Act of 1996 (DCCA), Public Law 104–134, chapter 10, section 31001.

Total Annual Burden: 24,336 hours.

Total Annual Costs: No cost.

Needs and Uses: Respondents use FCC Form 160 to register in FCC’s Commission Registration System (CORES). Entities must register in CORES to do regulatory transactions with FCC, including receiving licenses, paying fees, participating in auctions, etc. Without this collection of information, FCC would not have a database of the identity and contact information of the entities it does regulatory business with.

OMB Control Number: 3060–1270.
Title: Protecting National Security Through FCC Programs.

Form Number: FCC Form 5640.

Type of Review: Revision of a currently-approved collection.
Respondents: Business or other for profit entities.

Number of Respondents and Responses: 3,500 respondents; 6,584 responses.

Estimated Time per Response: 0.5–12 hours.

Frequency of Response: Annual, semiannual, and recordkeeping requirements.

Obligation to Respond: Mandatory and required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 1603–1604.

Total Annual Burden: 20,236 hours.

Total Annual Cost: \$472,500.

Needs and Uses: The Communications Act of 1934, as amended, requires the “preservation and advancement of universal service.” 47 U.S.C. 254(b). The information collection requirements reported under this collection are the result of the Commission’s actions to promote the Act’s universal service goals.

On November 22, 2019, the Commission adopted the *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Report and Order, Order, and Further Notice of Proposed Rulemaking, 34 FCC Rcd 11423 (2019) (*Report and Order*). The *Report and Order* prohibits future use of Universal Service Fund (USF) monies to purchase, maintain, improve, modify, obtain, or otherwise support any equipment or services produced or provided by a company that poses a national security threat to the integrity of communications networks or the communications supply chain.

On March 12, 2020, the President signed into law the Secure and Trusted Communications Networks Act of 2019 (Secure Networks Act), Public Law 116–124, 133 Stat. 158 (2020) (codified as amended at 47 U.S.C. 1601–1609), which, among other measures, directs the FCC to establish the Secure and Trusted Communications Networks Reimbursement Program (Reimbursement Program). This program is intended to provide funding to providers of advanced communications service for the removal, replacement and disposal of certain communications equipment and services that poses an unacceptable national security risk (*i.e.*, covered equipment and services) from their networks. The Commission has designated two entities—Huawei Technologies Company (Huawei) and ZTE Corporation (ZTE), along with their affiliates, subsidiaries, and parents—as covered companies posing such a national security threat. See *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—Huawei Designation*, PS Docket No. 19–351, Memorandum Opinion and Order, 35 FCC Rcd 14435 (2020); *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—ZTE Designation*, PS Docket No. 19–352, Memorandum Opinion and Order, DA 20–1399 (PSHSB rel. Nov. 24, 2020).

On December 10, 2020, the Commission adopted the Second Report and Order implementing the Secure Networks Act, which contained new information collection requirements. See *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Second Report and Order, 35 FCC Rcd 14284 (2020) (*Second Report and Order*). These requirements allow the Commission to receive, review and make eligibility determinations and funding decisions on applications to participate in the

Reimbursement Program that are filed by certain providers of advanced communications service. These information collection requirements also assist the Commission in processing funding disbursement requests and in monitoring and furthering compliance with applicable program requirements to protect against waste, fraud, and abuse. Participation in the Reimbursement Program is voluntary, but compliance with the information collection requirements is required to obtain Reimbursement Program support.

On August 3, 2021, the Wireline Competition Bureau (Bureau) released a Public Notice adopting procedures for filing and processing applications submitted for the Reimbursement Program. These procedures largely tracked the procedural rules previously adopted by the Commission in the *Second Report and Order*, but also adopted a new requirement that Reimbursement Program participants notify the Commission of changes in ownership, to ensure accurate information is on file for participants and to help protect the Reimbursement Program against waste, fraud, and abuse.

This submission proposes to revise this currently-approved collection by deleting an existing question on FCC Form 5640 and replacing it with a more detailed query. The new question will ask program participants to describe in detail how they have spent Reimbursement Program funds. The addition of this question will allow the Bureau to satisfy its statutory obligations to collect information about how Reimbursement Program funds have been spent, including detailed accounting of the covered communications equipment and services permanently removed and disposed of, and the replacement equipment or services purchased, rented, leased, or otherwise obtained using Reimbursement Program funds, as well as to combat waste, fraud, and abuse, as required under the Secure Networks Act. The Bureau determined that FCC Form 5640 required this revision in order to elicit the information necessary for the Bureau to better satisfy its statutory obligations.

This proposed addition will increase the information collected, and will impose an additional burden on respondents, which will vary with the number of invoices respondents submit during the relevant reporting period. However, this submission also reflects a decrease in the estimated total annual responses, total annual burden hours, and total annual costs for this collection. These adjustments are due to

a reduction of the number of respondents for several categories of information to be collected on Form 5640, based on the Bureau's experience with the Reimbursement Program since this collection was first approved.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1167; FR ID 150753]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before August 28, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should

advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1167.

Title: Accessible Telecommunications and Advanced Communications Services and Equipment.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; businesses or other for-profit entities; not-for-profit institutions.

Number of Respondents and Responses: 3,541 respondents; 42,106 responses.

Estimated Time per Response: .50 hours (30 minutes) to 40 hours.

Frequency of Response: Annual, one-time, and on occasion reporting requirements; recordkeeping requirement; third-party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in sections 1–4, 255, 303(r), 403, 503, 716, 717, and 718 of the Communications Act, as amended, 47 U.S.C. 151–154, 255, 303(r), 403, 503, 617, 618, and 619.

Total Annual Burden: 120,999 hours.

Total Annual Cost: \$17,800.

Needs and Uses: In 2011, in document FCC 11–151, published at 76 FR 82354, December 30, 2011, the FCC adopted rules to implement sections 716 and 717 of the Communications Act of 1934 (the Act), as amended, which were added to the Act by the Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA). See Public Law 111–260, 104. Section 716 of the Act requires providers of advanced communications services and manufacturers of equipment used for advanced communications services to make their services and equipment accessible to individuals with disabilities, unless doing so is not achievable. 47 U.S.C. 617. Section 717 of the Act established new recordkeeping requirements and enforcement procedures for service providers and equipment manufacturers that are subject to sections 255, 716, and 718 of the Act. 47 U.S.C. 618. Section 255 of the Act requires telecommunications and interconnected VoIP services and equipment to be accessible to individuals with
