Workshop To Obtain Input on Draft Materials for the Integrated Science Assessment (ISA) for Sulfur Oxides (SO_x): Health Criteria

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Workshop.

SUMMARY: As part of the review of the air quality criteria for sulfur oxides (SO_x) and primary (health-based) National Ambient Air Quality Standards (NAAQS) for sulfur dioxide (SO₂), the Environmental Protection Agency (EPA) is announcing a teleconference workshop to evaluate preliminary draft materials that will inform the development of the SO_x Integrated Science Assessment (ISA) for health effects. The workshop is being organized by EPA's National Center for Environmental Assessment (NCEA) within the Office of Research and Development and will be held on June 23-24, 2014. Participation in the workshop will be by webinar or teleconference only.

DATES: The workshop will be held on June 23-24, 2014, beginning at 1:00 p.m. and ending at 4:00 p.m. each day.

FOR FURTHER INFORMATION CONTACT: Questions regarding information, registration, and logistics for the workshop should be directed to Ms. Whitney Kihlstrom, ICF International; telephone: 919-293-1646; facsimile: 919-293-1645; or email: whitney.kihlstrom@icfi.com. Questions regarding the scientific and technical aspects of the workshop should be directed to Dr. Tom Long; telephone: 919-541-1880; facsimile: 919-541-1818; or email: long.tom@epa.gov or Dr. Lisa Vinikoor-Imler; telephone: 919-

541-2931; facsimile: 919-541-1818; or email: vinikoor-impler.lisa@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Summary of Information About the Workshop

Section 109(d) of the Clean Air Act (CAA) requires the U.S. EPA to conduct periodic reviews of the air quality criteria for each air pollutant listed under section 108 of the Act. Based on such reviews, EPA is to retain or revise the NAAQS for a given pollutant as appropriate. As part of these reviews, NCEA assesses newly available scientific information and develops ISA documents (formerly known as Air Quality Criteria Documents) that provide the scientific basis for the reviews of the NAAQS.

NCEA is holding this teleconference workshop to inform the Agency's evaluation of the scientific evidence for the review of the primary NAAQS for SO₂. Section 109(b)(1) of the CAA defines primary NAAQS as standards, "the attainment and maintenance of which in the judgment of the Administrator, based on such criteria and allowing an adequate margin of safety, are requisite to protect the public health." EPA intends to develop a separate ISA, and NAAQS review, for the secondary (welfare-based) NAAQS for SO_x, in conjunction with a review of the secondary NAAQS for oxides of nitrogen. The purpose of the workshop is to obtain peer input on the scientific content of preliminary draft materials that will inform the development of the draft health effects ISA. Workshop participants will review and discuss preliminary draft materials on the atmospheric chemistry of and human exposure to SO_x as well as health effects evidence from in vivo and in vitro animal toxicology, controlled human exposure, and epidemiology studies. In addition, panel discussions will help identify key studies or concepts within each discipline to assist EPA in integrating relevant literature within and across disciplines. These preliminary materials are not being released to the general public before the workshop but will be used during the teleconference to guide workshop discussions and inform the development of the draft health effects ISA. This workshop is planned to help ensure that the ISA, once developed, is up-to-date and focuses on the key evidence to inform the scientific understanding for the review of the primary NAAQS for SO₂. EPA is planning to release the first external review draft health effects ISA for SO_x for review by the Clean Air Scientific

Advisory Committee and the public in December 2014.

II. Workshop Information

Members of the public may attend the teleconference as observers. Space in the teleconference or webinar may be limited, and reservations will be accepted on a first-come, first-served basis. Registration for the workshop is available online at <https://sites.google.com/site/soxpeerinputwebinar/>. The workshop agenda and additional information will be available through the NCEA Web site at <http://www.epa.gov/ncea> or by contacting one of the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Dated: June 5, 2014.

James Gallahan,
Acting Deputy Director, National Center for, Environmental Assessment.

Notice of Administrative Settlement Agreement for Recovery of Past Response Costs Pursuant to Section 122(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as Amended

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), notice is hereby given that a proposed administrative settlement agreement for recovery of past response costs ("Proposed Agreement") associated with Absco Scrap Yard Site, Philadelphia County, Pennsylvania was executed by the Environmental Protection Agency ("EPA") and is now subject to public comment, after which EPA may modify or withdraw its consent if comments received disclose facts or considerations that indicate that the Proposed Agreement is inappropriate, improper, or inadequate. The Proposed Agreement would resolve potential EPA claims under Section 107(a) of CERCLA, against Absco Inc., Sandra Blumberg and Marvin Blumberg ("Settling Parties"). The Proposed Agreement would require Settling Parties to
