Proposal To Mitigate Exposure to Bees From Acutely Toxic Pesticide Products; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; extension of comment period.

SUMMARY: EPA issued a notice in the **Federal Register** of May 29, 2015, concerning EPA's Proposal to Mitigate Exposure to Bees from Acutely Toxic Pesticide Products and a second notice on extending the comment period to July 29, 2015. This document extends the comment period for an additional 30 days, from July 29, 2015 to August 28, 2015. The Agency has received additional requests from multiple stakeholders to extend the comment period to allow them to adequately develop comments on this complex and important issue. EPA is granting the extension.

DATES: The comment period for the document published on May 29, 2015 (80 FR 30644) is extended. Comments identified by docket identification (ID)

number EPA–HQ–OPP–2014–0818 must be received on or before August 28, 2015.

ADDRESSES: Follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of May 29, 2015 (80 FR 30644) (FRL–9927–36).

SUPPLEMENTARY INFORMATION: This document further extends the public comment period established in the **Federal Register** document of May 29, 2015. In that document, EPA is seeking comment on a proposal to adopt mandatory pesticide label restrictions to protect managed bees under contract pollination services from foliar applications of pesticides that are acutely toxic to bees on a contact exposure basis. These label restrictions would prohibit applications of pesticide products, which are acutely toxic to bees, during bloom when bees are known to be present under contract. EPA is also seeking comment on a proposal to rely on efforts made by states and tribes to reduce pesticide exposures through development of locally-based measures, specifically through managed pollinator protection plans. These plans would include local and customizable mitigation measures to address certain scenarios that can result in exposure to pollinators. EPA intends to monitor the success of these plans in deciding whether further label restrictions are warranted. EPA is hereby extending the comment period, which was set to end on July 29, 2015 to August 28, 2015.

To submit comments, or access the docket, please follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of May 29, 2015. If you have questions, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

Background

The green turtle is currently listed under the ESA as a threatened species globally, with the exception of the Florida and Mexican Pacific coast breeding populations, which are listed as endangered. On March 23, 2015 (80 FR 15271), the Services published a proposed rule to revise these listings because we found that the green turtle is composed of 11 distinct population segments (DPSs) that qualify for listing under the ESA. We proposed to remove the current listings and, in their place, list eight DPSs as threatened and three as endangered. We also proposed to apply existing protective regulations to the DPSs and to continue the existing critical habitat designation (*i.e.*, waters surrounding Culebra Island, Puerto Rico) in effect for the North Atlantic DPS. We solicited comments on these proposed actions and indicated that comments must be received by June 22, 2015. On June 7, 2015 (80 FR 34594), we announced public hearings in Guam, the Commonwealth of the Northern Mariana Islands (CNMI), and American Samoa, and extended the public comment period through July 27, 2015. On July 13, 2015, we received requests to further extend the public comment period due to a typhoon and the island-wide loss of internet in Saipan, CNMI. We concur with these requests and hereby extend the public comment period by an additional 30 days, until August 26, 2015. Previously submitted comments do not need to be resubmitted.
