SUPPLEMENTARY INFORMATION:

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines, which have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction, which have also been promulgated by HHS as a final rule; advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC.

The Advisory Board's charter was issued on August 3, 2001, was renewed at appropriate intervals, was rechartered on March 22, 2022, and will terminate on March 22, 2024.

Purpose: This Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

Matters To Be Considered: The agenda will include discussions on the following: NIOSH Program Update; Department of Labor Program Update; Department of Energy Program Update; SEC Petitions Update; Procedures Review Finalization/Document Approvals; Update on Review of SEC–00188 Sandia Petition Addendum 2; Evaluation of Issues in the Use of General Area Air Sampling for Argonne National Laboratory–West Internal Dose Assessment; and a Board Work Session. Agenda items are subject to change as priorities dictate.

Administration for Children and Families

Proposed Information Collection Activity; Annual Report on Households Assisted by the Low Income Home Energy Assistance Program (LIHEAP) (Office of Management and Budget (OMB) #0970-0060)

AGENCY: Office of Community Services (OCS), Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: OCS, Division of Energy Assistance, is requesting a substantial change of the Household Report (OMB #0970-0060, expiration May 31, 2025). Grant recipients complete the Household Report on an annual basis, completing either the Long Form or the Short Form version of the report. Submission of the completed report is one requirement for Low Income Home Energy Assistance Program (LIHEAP) grant recipients applying for federal LIHEAP block grant funds. OCS proposes substantive changes, including the addition of reporting requirements for assisted applicants and household member demographic characteristics on the Household Report Long Form and Short Form, and the removal of reporting requirements collecting counts of applicant households by assistance type and poverty interval on the Household Report Long Form.

DATES: *Comments are due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be forwarded by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: States, the District of Columbia, and the Commonwealth of Puerto Rico are required to complete the Household Report-Long Form on an annual basis. The Long Form collects the following information:

- Assisted households, by type of LIHEAP assistance and funding source;
- Assisted households receiving bill payment assistance, by funding source;
- Assisted households receiving any type of LIHEAP assistance, by funding source;
- Assisted households by poverty interval, by type of LIHEAP assistance and funding source;
- Assisted households, by type of LIHEAP assistance and funding source, having at least one vulnerable member who is at least 60 years or older, disabled, or 5 years old or younger;
- Assisted households receiving any type of LIHEAP assistance or funding source, having at least one member 60 years or older, disabled, or 5 years old or younger.

Tribal grant recipients and other U.S. territory grant recipients are required to complete the Household Report-Short Form on an annual basis. The Short Form collects data only on the number of households, by funding source, receiving heating, cooling, energy crisis, and/or weatherization benefits.

The information reported in the Household Report Long Form and Short Form is being collected for the Department's annual LIHEAP Report to Congress. The data also provides information about the need for LIHEAP funds. Finally, the data are used in the calculation of LIHEAP performance measures under the Government Performance and Results Act of 1993. The data elements will allow the accuracy of measuring LIHEAP targeting performance and LIHEAP cost efficiency.

ACF is proposing changes to the Household Report Long Form and Short Form beginning with FY 2023 reporting. These changes include additional reporting requirements for assisted household and household member demographic characteristics, and the removal of reporting requirements collecting counts of applicant households by assistance type and poverty interval on the Household Report Long Form. The additional reporting requirements include the following:

1. Number of Households by Owner/Renter Status (own, rent with utilities billed separately, rent with utilities in rental fee, other). [This is optional for FY 2023 reporting and required beginning with FY 2024 reporting].

2. Number of Assisted Applicants by Ethnicity. Grant recipients will report on assisted applicants by ethnicity according to standard census categories. [This is required beginning with FY 2023 reporting].

3. Number of Assisted Applicants by Race. Grant recipients will report on assisted applicants by race according to standard census categories. [This is required beginning with FY 2023 reporting].

4. Number of Assisted Applicants by Gender. Grant recipients will report on assisted applicants by gender. [This is required beginning with FY 2023 reporting].

5. Number of Assisted Household Members by Ethnicity. Grant recipients will report on assisted household members by ethnicity according to standard census categories. [This is optional for FY 2023 reporting and required beginning with FY 2024 reporting].

6. Number of Assisted Household Members by Race. Grant recipients will report on assisted household members by race according to standard census categories. [This is optional for FY 2023 reporting and required beginning with FY 2024 reporting].

7. Number of Assisted Household Members by Gender. Grant recipients will report on assisted household members by gender. [This is optional for FY 2023 reporting and required beginning with FY 2024 reporting].

The proposed additions will provide OCS with critical data that is needed to evaluate if LIHEAP is equitably serving communities across the country. The collection of demographic data including owner/renter status, race, ethnicity, and gender will allow OCS to conduct analysis disaggregated by these variables to assess whether LIHEAP resources are equitably distributed. Therefore, this data collection aligns with the goals of Executive Order 13985 (Advancing Racial Equity and Support for Underserved Communities Through the Federal Government). Additionally, collecting demographic data in LIHEAP will bring the program into alignment with other programs across OCS including the Community Services Block Grant, which currently collects demographic data on beneficiaries, and the Low Income Household Water Assistance Program (LIHWAP), which will collect demographic data on beneficiaries in FY 2023.
