## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 74

[MB Docket No. 07–172; FCC 09–59]

#### Amendment of Service and Eligibility Rules for FM Broadcast Translator Stations

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The FCC amended its FM translator rules to allow AM stations to use currently authorized FM translators for “fill-in” service within their current coverage areas, to help them provide a

listenable signal to their listeners and better serve their local communities.

**DATES:** Effective October 1, 2009, except for 47 CFR 74.1284, which affects information collection requirements that are not effective until approved by the Office of Management and Budget (OMB). The FCC will publish a document in the **Federal Register** announcing the effective date for that section.

**ADDRESSES:** Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Tom Hutton (legal issues) or James Bradshaw (engineering issues), Media Bureau, Federal Communications Commission, (202) 418–2700.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission’s *Report and Order* (Order) in MB Docket No. 07–172, FCC 09–59, adopted and released June 29, 2009, Amendment of Service and Eligibility Rules for FM Broadcast Translator Stations. Previously, FM translators were only authorized to rebroadcast FM radio stations and other FM translator stations. The rule changes in the Order allow FM translators to rebroadcast AM radio stations within those stations’ current coverage areas. In addition, AM stations with daytime-only facilities will be allowed to originate programming on such FM translators during periods when the AM stations are not operating. These changes are intended to help AM stations provide a listenable signal throughout their current coverage areas and better serve the listening public.

#### Synopsis of Order

1. The Order describes several limitations and competitive challenges that AM stations face. The emergence of higher fidelity sources of audio programming, including FM broadcasts, satellite radio, personal media players and podcasts and audio streams provided through the Internet, has eroded the audience for AM stations, particularly among younger age groups. Sources of man-made interference have multiplied, creating a higher level of interference to AM signals at all hours. Skywave interference creates even greater problems starting before sunset and continuing after sunrise. Although the Commission has undertaken AM improvement efforts in the past, those efforts have not overcome the fundamental problems of AM radio and the erosion of the AM radio audience has increased to a point not previously experienced. The Order finds that the record in this proceeding clearly indicates a strong need and desire by
