

In interactive data format, financial statement information could be downloaded directly into spreadsheets and analyzed in a variety of ways using commercial off-the-shelf software. The specified financial information already is and will continue to be required to be submitted to the Commission in traditional format under existing requirements. The purpose of the interactive data requirement is to make financial information easier for investors to analyze and assist issuers in automating regulatory filings and business information processing. We estimate that 10,229 respondents per year will each submit an average of 4.5 responses per year for an estimated total of 46,031 responses. We further estimate an internal burden of 59 hours per response for a total annual internal burden of 2,715,829 hours (59 hours per response $\times$ 46,031 responses).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Rule 30e-1, SEC File No. 270-21,

OMB Control No. 3235-0025.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) ("Paperwork Reduction Act"), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget ("OMB") for extension and approval.

Rule 30e-1 (17 CFR 270.30e-1) under the Investment Company Act of 1940 (15 U.S.C. 80a-1 *et seq.*) ("Investment Company Act") generally requires a registered investment company ("fund") to transmit to its shareholders, at least semi-annually, reports containing the information that is required to be included in such reports by the fund's registration statement form under the Investment Company Act. The purpose of the collection of information required by rule 30e-1 is to provide fund shareholders with current information about the operation of their funds in accordance with Section 30 of the Investment Company Act.

Approximately 2,490 funds, with a total of approximately 10,750 portfolios, respond to rule 30e-1 annually. Based on conversations with fund representatives, we estimate that it takes approximately 84 hours to comply with the collection of information associated with rule 30e-1 per portfolio. This time is spent, for example, preparing, reviewing, and certifying the reports. Accordingly, we calculate the total estimated annual internal burden of responding to rule 30e-1 to be approximately 903,000 hours (84 hours $\times$ 10,750 portfolios). In addition to the burden hours, based on conversations with fund representatives, we estimate that the total cost burden of compliance with the information collection requirements of rule 30e-1 is approximately \$31,061 per portfolio. This includes, for example, the costs for funds to prepare, print, and mail the reports. Accordingly, we calculate the total external cost burden associated with rule 30e-1 to be approximately \$333,905,750.

Estimates of average burden hours are made solely for the purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even representative survey or study of the costs of Commission rules and forms. The collection of information under rule 30e-1 is mandatory. The information provided under rule 30e-1 will not be kept confidential. An agency may not conduct or sponsor, and a person is not

required to respond to, a collection of information unless it displays a currently valid OMB control number.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.
