

performed is of acceptable quality and to verify that the correct blocks were visited. If the cluster fails the DQC, then the DQC lister reworks the entire cluster. The completed listing books are keyed for matching against the census Decennial Master Address File for the same areas.

The Independent Listing results will be computer and clerically matched to the Decennial Master Address File from the census in the same areas. As the result of the matching, an additional relisting operation can occur for block clusters having high levels of geocoding errors in the original Independent Listing. The methods and procedures for Relisting will be the same as those for the Independent Listing operation. There will be one Independent Listing Form, DX-1302, that will be used for Independent Listing, DQC, and Relisting.

Definition of Terms

Components of Coverage Error—The two components of census coverage error are census omissions (missed persons or housing units) and erroneous inclusions (persons or housing units enumerated in the census that should not have been). Examples of erroneous inclusions are: housing units built after Census Day and persons or housing units enumerated more than once (duplicates).

Net Coverage Error—Reflects the difference between census omissions and erroneous inclusions. A positive net error indicates an undercount, while a negative net error indicates an overcount.

Affected Public: Individuals or households.

Frequency: One-time.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C. 141 & 193.

SUPPLEMENTARY INFORMATION:

I. Abstract

Title V of the Trade and Development Act of 2000 ("the Act") as amended by the Trade Act of 2002, the Miscellaneous Trade Act of 2004, and the Pension Protection Act of 2006 contains several provisions to assist the wool products industries. These include the establishment of tariff rate quotas (TRQ) for a limited quantity of worsted wool fabrics. The Act requires the President to fairly allocate the TRQ to persons who cut and sew men's and boys' worsted wool suits and suit like jackets and trousers in the United States, and who apply for an allocation based on the amount of suits they

produce in the prior year. The Act specifies factors to be addressed in considering such requests. The TRQ was originally effective for goods entered or withdrawn from warehouse for consumption, on or after January 1, 2001, and was to remain in force through 2003. On August 6, 2002, President Bush signed into law the Trade Act of 2002, which includes several amendments to Title V of the Act including the extension of the program through 2005. On December 3, 2004, the Act was further amended pursuant to the Miscellaneous Trade Act of 2004, Public Law 108-429, by increasing the TRQ for worsted wool fabric with average fiber diameters greater than 18.5 microns, HTS 9902.51.11, to an annual total level of 5.5 million square meters, and extending it through 2007, and increasing the TRQ for average fiber diameters of 18.5 microns or less, HTS 9902.51.15 (previously 9902.51.12), to an annual total level of 5 million square meters and extending it through 2006. On August 17, 2006, the Act was further amended pursuant to the Pension Protection Act of 2006, Public Law 109-280, which extended both TRQs, 9902.51.11 and 9902.51.15, through 2009. A TRQ allocation will be valid only in the year for which it is issued.

On December 1, 2000, the President issued Proclamation 7383 that, among other things, delegates authority to the Secretary of Commerce to allocate the TRQ and to issue regulations to implement these provisions. On January 22, 2001, the Department of Commerce published regulations establishing procedures for allocation of the tariff rate quotas (66 FR 6459, 15 CFR part 335). These interim regulations were adopted, without change, as a final rule published on October 24, 2005 (70 FR 61363). The Department must collect certain information in order to fairly allocate the TRQ to eligible persons.

II. Method of Collection

The information collection forms will be provided via the Internet and by mail to requesting firms.

III. Data

OMB Number: 0625-0240.

Form Number: ITA-4139, and ITA-4140P.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 20.

Estimated Time Per Response: 1-3 hours.

Estimated Total Annual Burden Hours: 160 hours.

Estimated Total Annual Costs: \$47,400.

The estimated annual cost for this collection is \$47,400 (\$5,400 for respondents and \$42,000 for Federal Government).

IV. Request for Comments

Comments are invited on (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
