

and Special Programs Administration (RSPA), and the Minerals Management Service (MMS), in concert with the states, the oil industry and concerned citizens, developed the preparedness for Response Exercise Program (PREP). PREP was developed to establish a workable oil pollution response exercise program, which meets the intent of section 4204(a) of the Oil Pollution Act of 1990. PREP provides a mechanism for compliance with the exercise requirements, while being economically feasible for the government and oil industry to adopt and sustain. Since the inception of PREP, public meetings have been held periodically to assess the continuing vitality of the program.

Availability of Documents

The NSCC has prepared responses to comments received in association with the August 2000 PREP Workshop held in Washington, DC. These responses are available for review at the Docket Management Facility at <http://dms.dot.gov> (USCG-2000-7514). These responses and additional information regarding PREP are also available at the following web sites:

USCG:<http://www.uscg.mil/hq/g-m/nmc/response/#PREP>

MMS:<http://www.mms.gov>

EPA:<http://www.epa.gov/oilspill/index.htm>

OPS:<http://ops.dot.gov/>

As noted in some of the responses, the NSCC is currently working on revising the existing 1994 PREP Guidelines. Proposed changes to the Guidelines will be available at the Docket Management Facility Web Site (USCG-2000-7514), as well as, the above agency Web Sites by June 1, 2001. NSCC will consider whether to schedule a PREP Workshop to discuss these proposed changes. Any comments on the proposed changes must be submitted to the Docket Management Facility no later than September 1, 2001.
