Overview of This Information Collection:

1. *Type of Information Collection:* Extension of a currently approved collection.

2. *The Title of the Form/Collection:* Return A—Monthly Return of Offenses Known to Police and Supplement to Return A—Monthly Return of Offenses Known to Police and Supplement of Return A—Monthly Return of Offenses Known to Police

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form Number: 1–720 and 1–706.

Sponsor: Criminal Justice Information Services Division, Federal Bureau of Investigation, Department of Justice.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* City, county, state, tribal and federal law enforcement agencies.

Abstract: Under Title 28, U.S. Code 534, Acquisition, Preservation, and Exchange of Identification Records; Appointments of Officials, 1930, this collection requests Part I offense and

clearance data, as well as stolen and recovered monetary values of stolen property throughout the United States from city, county, state, tribal, and federal law enforcement agencies in order for the FBI UCR Program to serve as the national clearinghouse for the collection and dissemination of crime data and to publish these statistics in the *Preliminary Semi-Annual Report and Crime in the United States*.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* There are approximately 18,600 law enforcement agencies within the universe of potential respondents. Due to the recent NIBRS transition, the UCR Program is no longer accepting new monthly submissions for Return A and Supplement to Return A data using this clearance. This clearance is being maintained to allow the submission of updates to past SRS submissions that were provided by agencies prior to the 2021 NIBRS transition. The submission of updates to past data is strictly voluntary and at the discretion of the contributing agency. Based on current reporting patterns, The FBI UCR Program has received 117,152 Return A & Supplement to Return A update submissions since January 1, 2021 with an estimated response time of 7 minutes per response on this form. As the UCR Program moves further from the NIBRS transition, it is expected that the total number of updates will steadily decline, mainly due to updates being done through NIBRS on a more frequent basis. However, due to the need for these updates, the burden hour estimate is based on the most recent submission volumes to achieve the highest possible burden estimate.

6. *An estimate of the total public burden (in hours) associated with the collection:* There are approximately 13,668 hours, annual burden, associated with this information collection.
