

commensurate with the level of research activities defined by the CRADA Research Plan. It is anticipated that PHS facilities and/or those of the collaborator will be utilized, as appropriate, for the research activities as defined by the Research Plan. NIHCC anticipates, in addition, that the Collaborator, as appropriate, will provide funding for the project.

Party Contributions

The NIHCC anticipates that its role may include, but not be limited to, the following:

(1) Plan research studies, interpret research results, and, as appropriate, jointly publish the conclusions with the collaborator;

(2) Provide collaborator with access to existing NIHCC research data, both already collected and yet to be collected (except for medical or other personal data regarding identifiable patients);

(3) Provide staff, expertise, and materials for the development and testing of promising application products;

(4) Provide work space and equipment for testing of any prototype products developed.

The NIHCC anticipates that the role of the successful collaborator will include at least the following:

(1) Provide significant intellectual, scientific, and technical expertise in the development of relevant products;

(2) Plan research studies, interpret research results, and, as appropriate, jointly publish the conclusions; and

(3) Provide NIHCC a supply of necessary materials, access to necessary proprietary technology and/or data, and as necessary for the project, staff and funding in support of the research goals.

Other contributions may be necessary for particular proposals.

Selection Criteria

Proposals submitted for consideration should address, as best as possible and to the extent relevant to the proposal, each of the following:

(1) Expertise:

A. Expertise in the research and development of diagnostic, prognostic, and/or therapeutic products pertinent to the technology; and

B. Ability to secure national marketing and distribution of its products (international distribution a plus).

(2) Reliability as a research partner, specifically:

A. Willingness to commit best effort and to provide adequate and sustained resources and/or funding, as appropriate, to support the CRADA studies;

B. Development of this technology, as outlined in the CRADA Collaborator's proposal;

C. Ability to develop and produce products in a timely manner, as applicable (for example, as demonstrated by a history of meeting benchmarks in licenses);

D. Commitment to supporting the advancement of scientific research, as evidenced by a willingness to jointly publish research results in a prompt manner; and

E. Willingness to be bound by DHHS and PHS policies regarding:

(i) the public distribution of research tools,

(ii) the care and handling of animals, and

(iii) protection of humans who are subjects of research.

(3) Physical Resources:

A. An established headquarters, with office space and basic office equipment;

B. Access to the organization during business hours by telephone, facsimile, courier, U.S. Post, e-mail, the World-Wide-Web, and, as appropriate, other evolving information technologies; and

C. Sufficient financial and material resources to support, at a minimum, the anticipated activities of the CRADA to meet the needs of NIHCC under the proposal.

The collaborator is encouraged to propose, in the written research statement, related applications and technologies other than those specifically described herein.
