

project site in the fall of 2001. She provided a methodology for considering culturally significant resources, which was followed in this planning process. An inventory of the watershed, and associated downstream impacted area was completed with no culturally important or archaeological sites noted. The area of potential effect was provided to the Georgia State Historic Preservation Office with passive concurrence provided.

Public Participation

A public meeting was held on March 20, 2002 to explain the Small Watershed Rehabilitation Program and to scope resource problems, issues, and concerns of local residents associated with the Y-14 project area. Potential alternative solutions to bring Y-14 into compliance with current dam safety criteria were also presented. Through a voting process, meeting participants provided input on issues and concerns to be considered in the planning process, and identified the most socially acceptable alternative solution.

A second public meeting was held on June 26, 2002 to summarize planning accomplishments, convey results of the reservoir sedimentation survey, and present various structural alternatives. The roller compacted concrete alternative was identified as the most complete, acceptable, efficient, and effective plan for the watershed.

Conclusion

The Environmental Assessment summarized above indicates that this Federal action will not cause significant adverse local, regional or national impacts on the environment. Therefore, based on the above finding, I have determined that an environmental impact statement for the recommended plan of action on Yellow River Watershed Structure No. 14 is not required.

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department of Commerce (Department) regulations are to the regulations at 19 CFR part 351 (April 2001).

Final Determination

We determine that certain cold-rolled carbon steel flat products (cold-rolled steel) from Australia are being, or are likely to be, sold in the United States at less than fair value (LFTV), as provided in section 735 of the Act. The estimated margins are shown in the “Suspension of Liquidation” section of this notice.

Background

On May 9, 2002, the Department published its preliminary determination in the above-captioned antidumping duty investigation. *See Notice of Preliminary Determination of Sales at Less Than Fair Value: Certain Cold-Rolled Carbon Steel Flat Products From Australia*, 67 FR 31192 (May 9, 2002) (*Preliminary Determination*). *See also Notice of Initiation of Antidumping Duty Investigations: Certain Cold-Rolled Carbon Steel Flat Products From Argentina, Australia, Belgium, Brazil, France, Germany, India, Japan, Korea, the Netherlands, New Zealand, the People's Republic of China, the Russian Federation, South Africa, Spain, Sweden, Taiwan, Thailand, Turkey, and Venezuela*, 66 FR 54198 (October 26, 2001) (*Initiation Notice*).

Since the preliminary determination, the following events have occurred. We gave interested parties an opportunity to comment on the preliminary determination. With respect to scope, in the preliminary LFTV determinations in these cases, the Department preliminarily excluded certain porcelain enameling steel from the scope of these investigations. *See Scope Appendix to the Notice of Preliminary Determination of Sales at Less Than Fair Value: Certain Cold-Rolled Carbon Steel Flat Products from Argentina*, 67 FR 31181 (May 9, 2002) (*Scope Appendix—Argentina Preliminary LFTV Determination*). On June 13, 2002, we

issued a preliminary decision on the remaining 75 scope exclusion requests filed in a number of the on-going cold-rolled steel investigations (*see the June 13, 2002, memorandum regarding “Preliminary Scope Rulings in the Antidumping Investigations on Certain Cold-Rolled Carbon Steel Flat Products from Argentina, Australia, Belgium, Brazil, France, Germany, India, Japan, Korea, the Netherlands, New Zealand, the People's Republic of China, the Russian Federation, South Africa, Spain, Sweden, Taiwan, Thailand, Turkey, and Venezuela, and in the Countervailing Duty Investigations of Certain Cold-Rolled Carbon Steel Flat Products from Argentina, Brazil, France, and Korea” (Preliminary Scope Rulings)*), which is on file in the Central Records Unit (CRU), room B–099 of the main Department building. We gave parties until June 20, 2002, to comment on the preliminary scope rulings, and until June 27, 2002, to submit rebuttal comments. We received comments and/or rebuttal comments from petitioners and respondents from various countries subject to these investigations of cold-rolled steel. In addition, on June 13, 2002, North American Metals Company (an interested party in the Japanese proceeding) filed a request that the Department issue a “correction” for an already excluded product. On July 8, 2002, the petitioners objected to this request.

At the request of multiple respondents, the Department held a public hearing with respect to the *Preliminary Scope Rulings* on July 1, 2002.

We gave interested parties an opportunity to comment on the preliminary determination. No case or rebuttal briefs were submitted.

Critical Circumstances

In letters filed on December 7, 2001, and January 14, 2002, the petitioners alleged that there is a reasonable basis to believe or suspect that critical circumstances exist with respect to imports of cold-rolled steel from Australia and other countries. On April 18, 2002, the Department published in the **Federal Register** its preliminary determination that critical circumstances exist for imports of cold-rolled steel from Australia and other countries. *See Notice of Preliminary Determinations of Critical Circumstances: Certain Cold-Rolled Carbon Steel Flat Products From Australia, the People's Republic of China, India, the Republic of Korea, the Netherlands, and the Russian Federation*, 67 FR 19157 (April 18, 2002) and Memorandum from Bernard
