IV. Request for Comments

The Department of the Interior invites comments on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agencies' estimate of the burden (including the hours and cost) of the proposed collection of information, including the validity of the methodology and assumption used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection. They also will become a matter of public record.

All written comments will be available for public inspection in Room 4660 of the Main Interior Building, 1849 C Street, NW, Washington, DC from 9 a.m. until 3 p.m., Monday through Friday, excluding legal holidays.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information, unless it displays a currently valid Office of Management and Budget control number.

This notice is published under the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 Departmental Manual 8.1.

Dated: January 9, 2002.

Neal A. McCaleb,

Assistant Secretary, Indian Affairs.

National Park Service

Notice of Availability of The Record of Decision for the Final Supplemental Environmental Impact Statement for The Old Agency Area (Project 3P13) of the Natchez Trace Parkway

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The Department of the Interior, National Park Service, announces the availability of a signed Record of Decision (March 23, 2001) on the Final Supplemental Environmental Impact Statement for the Old Agency Area (Project 3P13) of the Natchez Trace Parkway.

The Natchez Trace Parkway was established in 1938 to commemorate the Old Natchez Trace, a primitive network of trails that stretched approximately 716 kilometers (444 mi.) from Natchez, Mississippi, to Nashville, Tennessee. Today, two portions of the parkway motor road comprising about 32 kilometers (20 mi.) of its total length remain unfinished in Mississippi. The 1.8 kilometer (1.1 mi.) unfinished segment of the parkway known as 3P13 is within the city of Ridgeland and, is the focus of the Final Supplemental Environmental Impact Statement (FSEIS) for the Old Agency Road Area and the Record of Decision.

In 1998, public workshops produced 16 conceptual alternatives for construction of the parkway motor road and local public roads within the project area. Following additional public review and NPS evaluation of the conceptual alternatives, five concepts were determined to be the most viable and consistent with the proposed project's purpose. These five concepts were further refined and were analyzed in the Draft and Final Supplemental Environmental Impact Statement for the Old Agency Road Area as Alternatives 1, 2, 3, 4, and 5. Alternative 1 is the alternative that was originally proposed in the 1978 Final Environmental Impact Statement for Natchez Trace Parkway; it is the no-action alternative and served
